- 5 [Support](#)

The image shows the Worldpay logo, which consists of the word "worldpay" in a white, lowercase, sans-serif font. The logo is centered on a solid red rectangular background.

Highlight Features

- Checkout using their payment cards, including debit cards and credit cards.
- Add Worldpay account to the Magento store.
- Protect merchants better with 3D Secure Checkout, checking for fake card information.
- Support for various types of payment cards, including Visa, MasterCard, Paypal, and American Express.
- Payment gateway customization, giving customer a better checkout experience.
- Reporting of transactions, keeping control of all orders and invoices.
- Various tools for theft and fraud protection.

System Requirements

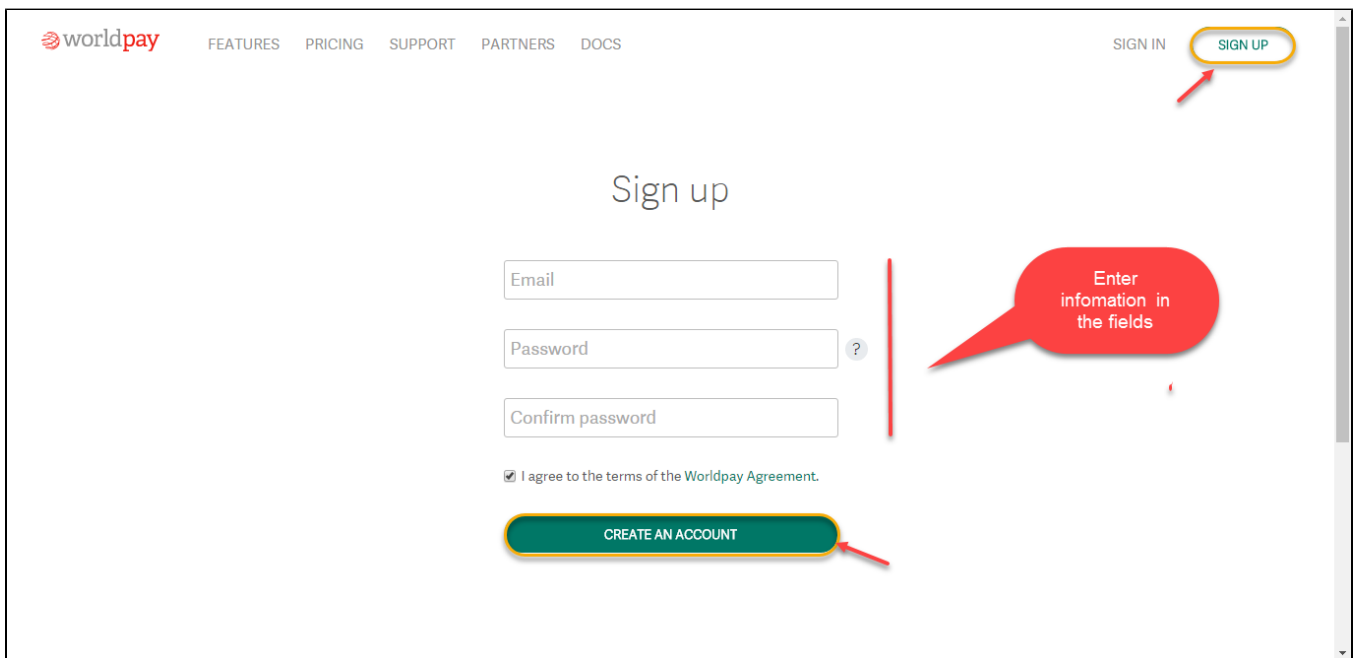

Your store should be running on Magento 2 Community Edition version 2.1.x.

How to create a new customer account

It is necessary to create a new customer account for connection between Magento 2 and WorldPay.

First of all, go to <https://online.worldpay.com/> and register an WorldPay accounts (click on "Create an account"). If you already have an account, you can skip this step.

Fill in the form the information of your Organization and press "Create an Account". If everything is right, WorldPay will inform you to check your email and activate your account.

The screenshot shows the WorldPay 'Sign up' page. At the top left is the WorldPay logo, followed by navigation links: FEATURES, PRICING, SUPPORT, PARTNERS, and DOCS. At the top right are links for SIGN IN and SIGN UP (highlighted with a red arrow). The main heading is 'Sign up'. Below it are three input fields: Email, Password (with a question mark icon), and Confirm password. A red speech bubble points to these fields with the text 'Enter information in the fields'. Below the fields is a checkbox labeled 'I agree to the terms of the Worldpay Agreement.' and a large green button labeled 'CREATE AN ACCOUNT' (highlighted with a red arrow).

When your account is activated, you can login on the page <https://online.worldpay.com/>

Configuration

General Configuration

✚ In order to get your extension up and running properly, we highly recommend that you make some configurations right from the beginning.

First of all, go to **Backend of Magento 2 stores-> Worldpay Payment Gateway-> Settings**

Then navigate to **Worldpay Payment Gateway-> Settings->Payment Methods** to install your payment methods

Merchant Country: you choose the country where the vendor lives

Default Settlement Currency: to make your payment successful, you must choose currency suitable with both merchant and customer. It is called as the default settlement currency

Sitecodes: a sitecode is a value that can be passed in the order request to differentiate between different sites you have. A "site" could be different websites you have or it could be the same website but different internal suppliers of the service

Authorize Only

Authorize and Capture

Distinguishing between Authorize Only and Authorize Capture:

1. Authorize only will check the card for validity but not charge the account until the order is approved and invoiced.
2. Authorize and capture will charge the debit/credit card at the time of the order submission.

+ To create **Subscription** for your product. You can log in backend of **Worldpay Payment and Subscriptions** and start some settings such as:

Click on Products menu, choose product and enter information into compulsory fields.

Then click **Worldpay Subscription Plans**-> **General Config**: set **Enable Subscription**, **Customer can define subscription start date** in default mode: Yes

In **Options** menu, fill necessary information about **period unit**, **frequency**, **total billing cycle** for Subscription duration.

Period unit: is the duration of one cycle in a repeating product event

Frequency: the number of buying product cycles per unit time.

Total Billing Cycle: total the number of billings repeating in one cycle.

Finally, click on **Save** button to finish.

[Details](#)[Reviews](#)

Luma presents an innovative power vinyasa yoga class for intermediate and advanced practitioners. The video allows you to pace yourself, but more intense work yields longer rest. This class is great for more advanced students looking to learn proper alignment in their yoga practice.

- Includes a breakdown of 12 different postures.
- Chataranga Dandasana and prayer twist.
- Challenging posture (side crow).
- 55 minutes of movement.

Refund

You can click **Refund Offline** or **Refund** dependent on your request. Refund successfully!

Note:

All of the payment's process operate in Worldpay 's payment site, not in Magento.

Update

- When a new update is available, we will provide you with a new package containing our updated extension.
 - You will have to delete the module directory and repeat the installing steps above.
 - Flush the config cache. Your store and newly installed module should be working as expected.
-

Support

- We will reply to support requests after **2 business days**.
 - We will offer **lifetime free update and 6 months free support for all of our paid products**. Support includes answering questions related to our products, bug/error fixing to make sure our products fit well in your site exactly like our demo.
 - Support **DOES NOT** include other series such as customizing our products, installation and uninstallation service.
-

Once again, thank you for purchasing our extension. If you have any questions relating to this extension, please do not hesitate to contact us for support.
