2. Multiple Vendors User Guides

Thank you for purchasing my extension. If you have any questions that are beyond the scope of this help file, please feel free to email via my user page contact form here. Thank you so much!

Created: 16/02/2017 | By: Magenest | Support Portal: http://servicedesk.izysync.com/servicedesk/customer/portal/14

Introduction

Multiple Vendors extension for Magento 2 by Magenest allows you to convert Magento 2 store to a marketplace where multiple vendors can manage sales of their own products.

Features for admins

- Allow marketplace owner to manage vendor information, approve or reject a vendor account from the marketplace.
- Allow marketplace owner to manage, approve or reject a vendor's products.
- Allow marketplace owner to manage vendor's orders, including order info, order status, and update order status.
- Allow marketplace owner to manage feedback about vendors: approve and delete feedbacks on vendors.
- Allow marketplace owner to manage all vendor participation request: manage all questions from vendors and approve, delete or answer.
- Allow setting: setting email, setting view vendor store
- Admin Dashboard: show total sales, total credit and show chart

Features for vendors

- Register for a Vendor Account and wait for approval from marketplace owner.
- Set Vendor Profile: vendor information, vendor social network profiles.
- Set up Vendor Store and preview Vendor store.
- Manage vendor's products.
- View customer orders.
- Send questions to marketplace owner.
- Dashboard: show sales chart, transaction history, product approval status, customer review and feedback.

Features for customers

- View products of different vendors.
- Add products from different vendors to cart.
- View vendor info.
- Review vendors based on their price, quality and value.
- Contact to vendors.

System Requirements
Your store should be running on Magento Community Edition version 2.1.x.
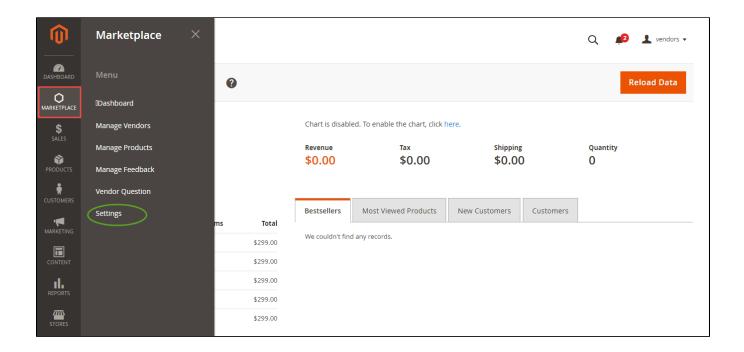

Configuration
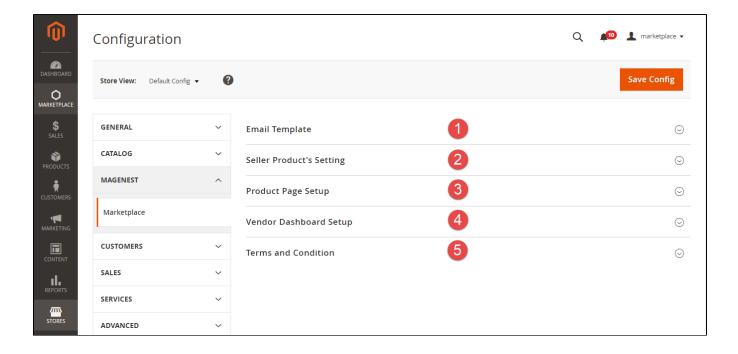

We have created **MarketPlace** tab for this extension which allows store owner easily to control their marketplace.

In order to get the extension up and running properly, we highly recommend that you make some configurations right from the beginning.

First, go to **Market Place > Settings**:

In Settings tab, there are five parts: **Email Template, Seller Product's Setting, Product Page Setup, Vendor Dashboard Setup, Terms and Condition.**

➕ **Email Template:**

In this tab, admins will be able to select the email templates for their store for each case as below:

Email Template ①

|		
Email Form [store view]	General Contact	▾
	Email form selected.	
Email Template Approve Vendor [store view]	Approve Vendor (Default)	▾
	Approve account send email to vendor.	
Email Template Disapprove Vendor [store view]	Disapprove Vendor (Default)	▾
	Disapprove account send email to vendor.	
Email Template Reject To Vendor [store view]	Reject Vendor (Default)	▾
	Reject vendor account send email to vendor.	
Email Template Approve Product Vendor [store view]	Product Vendor Approve (Default)	▾
	Approve product and send mail to vendor	
Email Template Disapprove Product Vendor [store view]	Product Vendor Disapprove (Default)	▾
	Disapprove product and send mail to vendor	
Email Template Reject Product Vendor [store view]	Product Vendor Reject (Default)	▾
	Reject product and send mail to vendor	
Email Template Customer Question [store view]	Customer Questions (Default)	▾
	Customer add questions send email vendor.	
Email Template Customer Feedback [store view]	Product Vendor (Default)	▾
	Email content feedback to vendor	
Email Template Contact Us [store view]	Contact Us (Default)	▾
	Approve feedback and send mail to vendor	
Email Template Approve Feedback Customer [store view]	Product Vendor (Default)	▾
	Approve feedback and send mail to vendor	
Email Template Update Status Vendor [store view]	Update Order Status (Default)	▾
	Update status and send mail to vendor	
Email Template Invoice Vendor [store view]	Order Invoiced (Default)	▾
Support Email [global]	williamtyler2908@gmail.com	
	Enter an email address that will receive vendors questions	

Note that you need to have email templates before going to configure. You can use our default email template or create a new one from Email Templates tab.
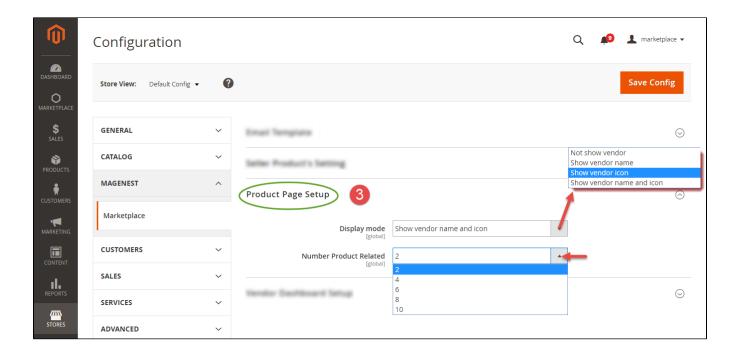

➕ **Seller Product's Setting**

Admin can decide whether product vendors must be approved before customers can view them on frontend store. Furthermore, admin can also require product approval for both the first time and the update.

➕ **Product Page Setup**
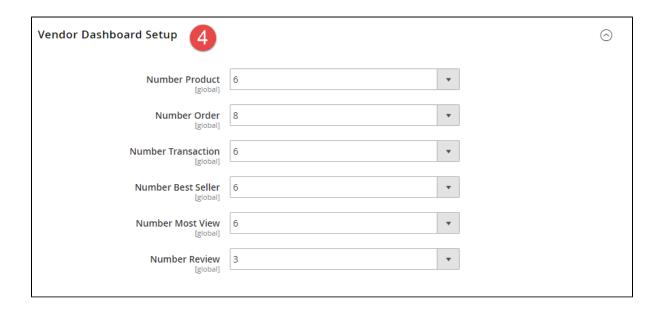

This tab allows admin to manage Product Detail Page in frontend store. Admin can decide to show vendor names, vendor icons or both of them. In addition, admins can choose one value from Number Product Related drop down list.
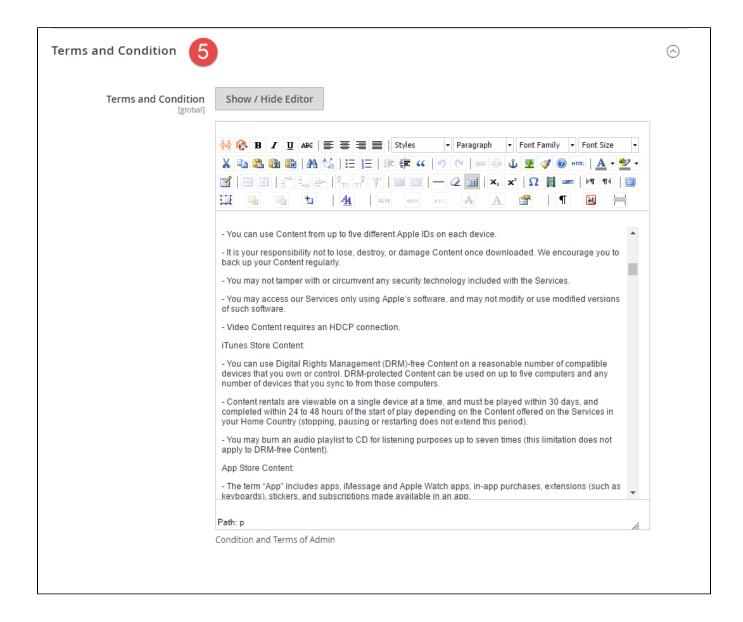

Vendor Dashboard Setup

Admin has the ability to set up Vendor Dashboard with **Number Product, Number Order, Number Transaction, Number Best Seller, Number Most View, Number Review.**

Terms and Condition

Store owners can add content for Terms and Condition for their marketplace:

Terms and Condition ⑤ ⊙

Terms and Condition [global] | Show / Hide Editor |

- You can use Content from up to five different Apple IDs on each device.

- It is your responsibility not to lose, destroy, or damage Content once downloaded. We encourage you to back up your Content regularly.

- You may not tamper with or circumvent any security technology included with the Services.

- You may access our Services only using Apple's software, and may not modify or use modified versions of such software.

- Video Content requires an HDCP connection.

iTunes Store Content:

- You can use Digital Rights Management (DRM)-free Content on a reasonable number of compatible devices that you own or control. DRM-protected Content can be used on up to five computers and any number of devices that you sync to from those computers.

- Content rentals are viewable on a single device at a time, and must be played within 30 days, and completed within 24 to 48 hours of the start of play depending on the Content offered on the Services in your Home Country (stopping, pausing or restarting does not extend this period).

- You may burn an audio playlist to CD for listening purposes up to seven times (this limitation does not apply to DRM-free Content).

App Store Content:

- The term "App" includes apps, iMessage and Apple Watch apps, in-app purchases, extensions (such as keyboards), stickers, and subscriptions made available in an app.

Main Feature

For Vendor

- **Set Up Vendor Account**

➕ **Login Vendor Account:**
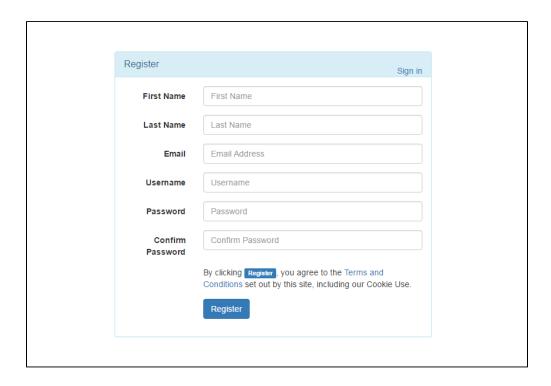

We have created **Vendor Login** button at the top right-hand corner.

Vendors can sign in their account from here:
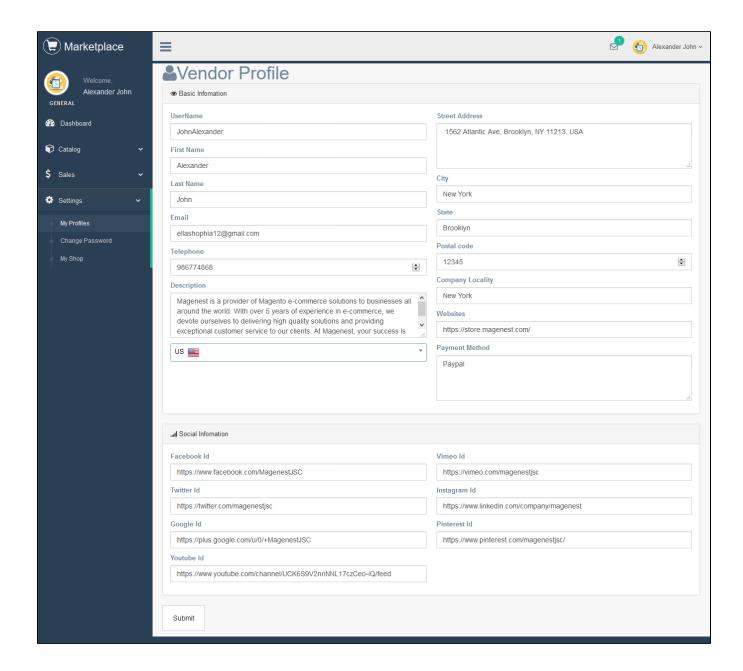

Or click on **Sign up here** button to create a new vendor account. It must be approved by the store owner to activate that vendor account.
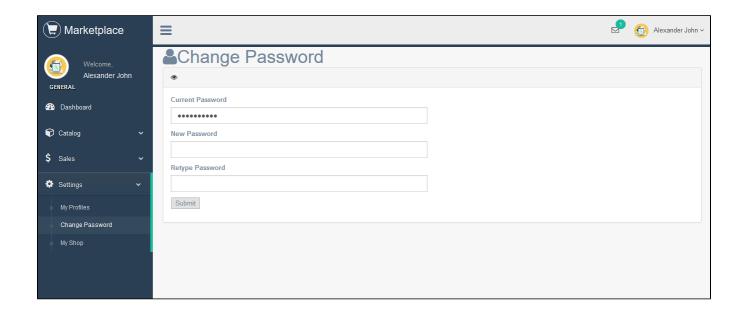

➕ **Manage Vendor Profile:**

Navigate to **Settings > My Profiles,** vendors can set up their profile including username, email, telephone, address, payment method, country, social information. etc.
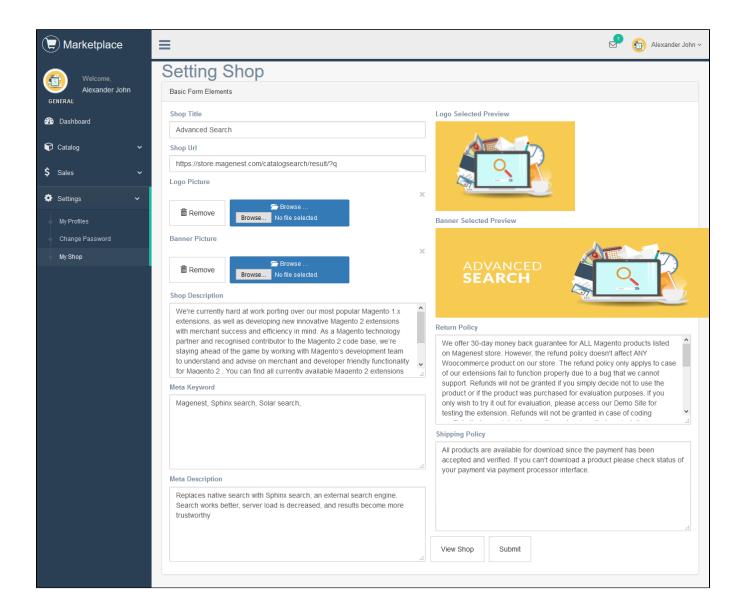

From vendor account, go to **Settings > Change Password** supplier can change their account password.

⊕ **Setting Shop:**

Last, vendors need to go to **My Shop** to build their store. After filling in form the necessary information and click on **Submit** button in the bottom right corner, suppliers can quickly view their store with **View Shop** button next to **Submit** button.

Return Policy

We offer 30-day money back guarantee for ALL Magento products listed on Magenest store. However, the refund policy doesn't affect ANY Woocommerce product on our store. The refund policy only applys to case of our extensions fail to function properly due to a bug that we cannot support. Refunds will not be granted if you simply decide not to use the product or if the product was purchased for evaluation purposes. If you only wish to try it out for evaluation, please access our Demo Site for testing the extension. Refunds will not be granted in case of coding

Shipping Policy

All products are available for download since the payment has been accepted and verified. If you can't download a product please check status of your payment via payment processor interface.

View Shop   Submit

- **Add New Products**

Vendors can click on **New Product** tab to create a new simple product or they can create another product type by choosing one from **Add Product** drop down list.

New Product Page appears as below. It is the same with the default of New Product Page in Magento 2 platform.

After that, click on **Save Product** button to save information entered.
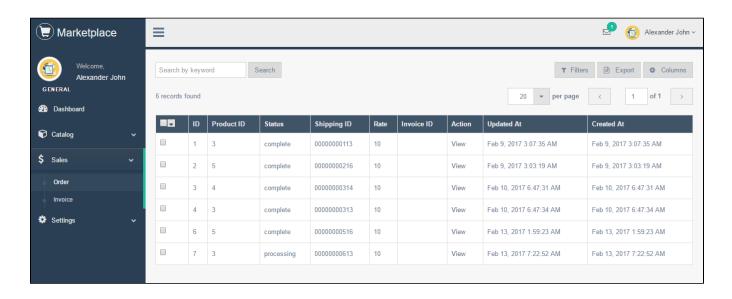

Especially, our extension allows vendors to create a new product from **Add Current Product** tab. In this way, store owners can help vendors create new products from backend of Magento 2 store. Then vendors just need to select the existing product and change its' product status from disable to enable.
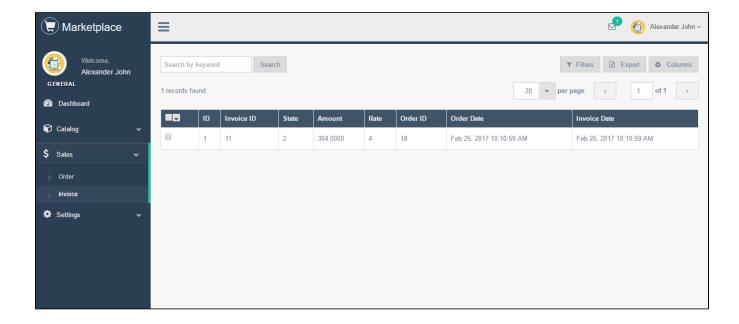

- **View Sales**

Vendors can view the sales in their shop easily:

➕ **Order:**
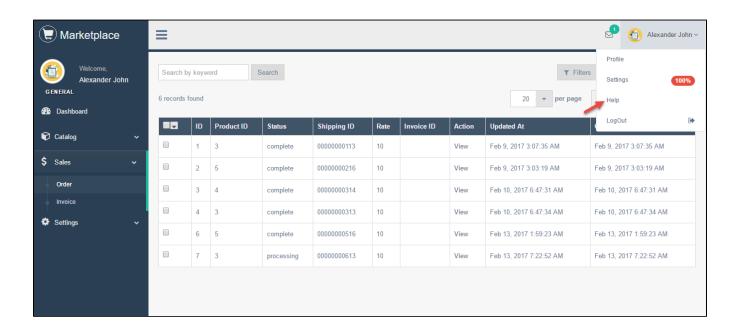

➕ **Invoices:**

■ **Ask Question to Admin**
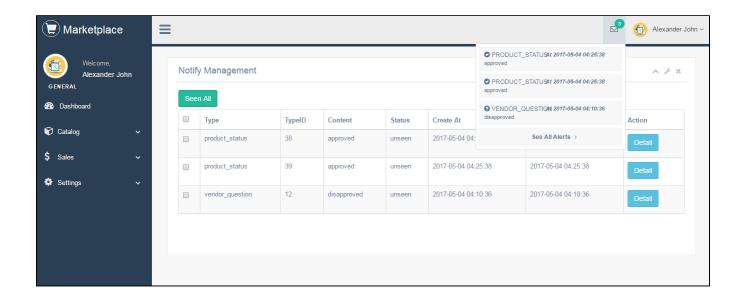

If vendors would like to submit a question to store owner, they can navigate to **My account > Help:**
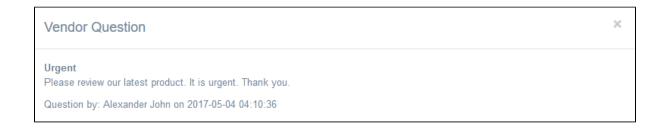

Then filling out the form as bellow:

Ask Question to Admin   ✕

Summary*

[   ]

Content*

[   ]
[   ]
[   ]
[   ]

                                          [Close] [Submit]

Especially, the system will create a notification when there is any event in vendors' shop:
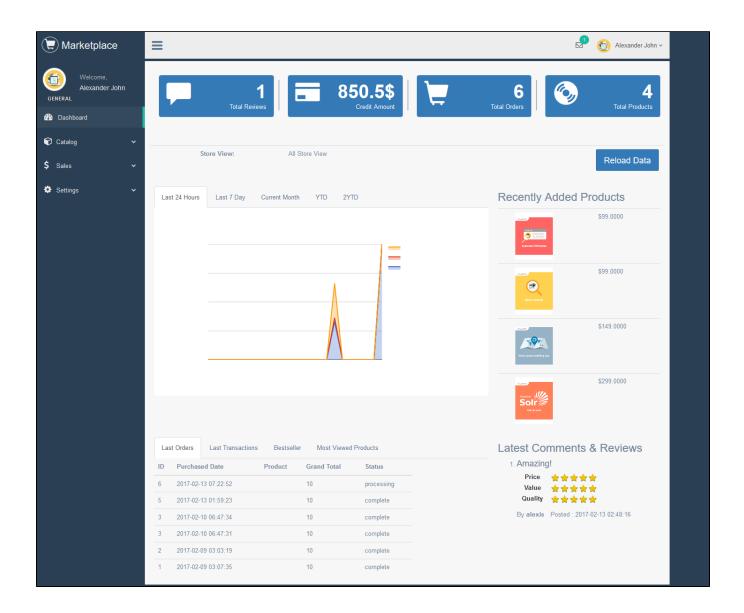

Vendors can view the notification in more detail by click on **Detail** button:

Vendor Question   ✕

Urgent
Please review our latest product. It is urgent. Thank you.

Question by: Alexander John on 2017-05-04 04:10:36
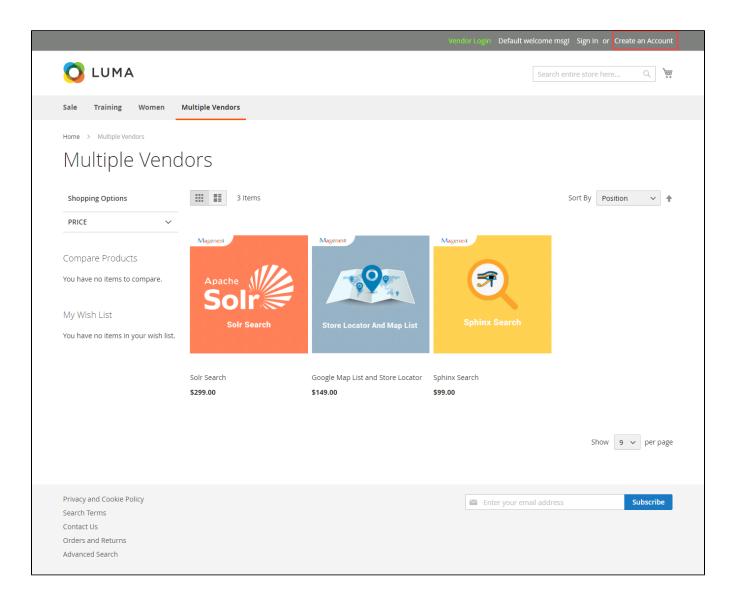

- ■ **View Vendor Dashboard:**

All information related to vendor account as reviews, credit amount, orders, products will be listed in Vendor Dashboard:
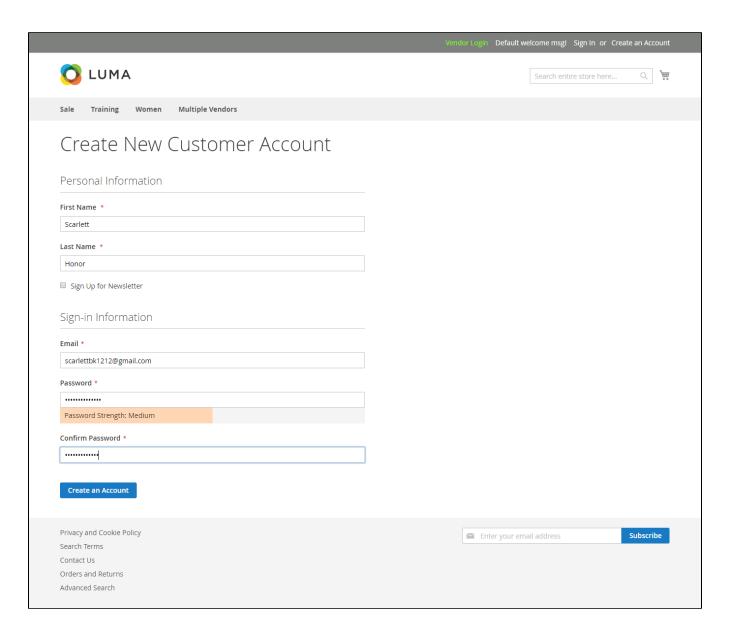

For Customer
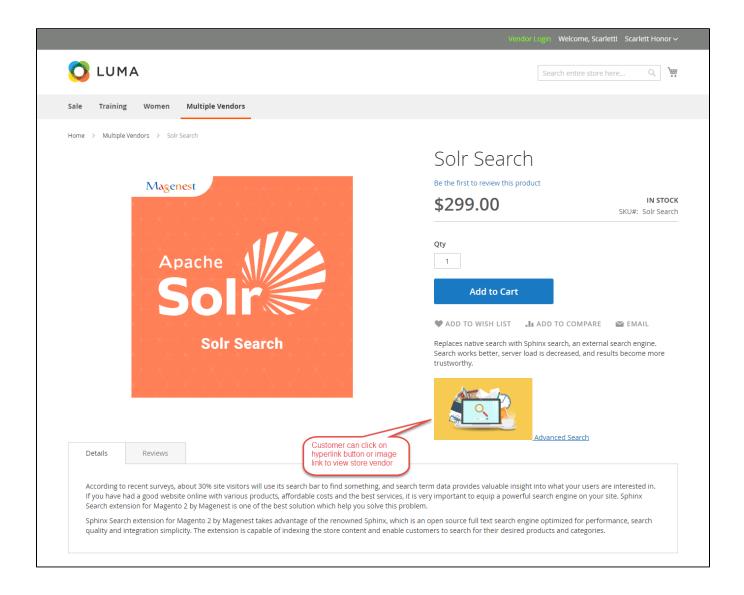

From front end of Magento 2 store, customers can sign up a new account or sign in as usual.

The Customer Registration page is the default in Magento 2 platform.

Customers can add vendor products to their card from vendor's categories:

Or go to the product detail page. After that, the customer will checkout using the default in Magento 2 platform.

Customers' order will be listed in their account:
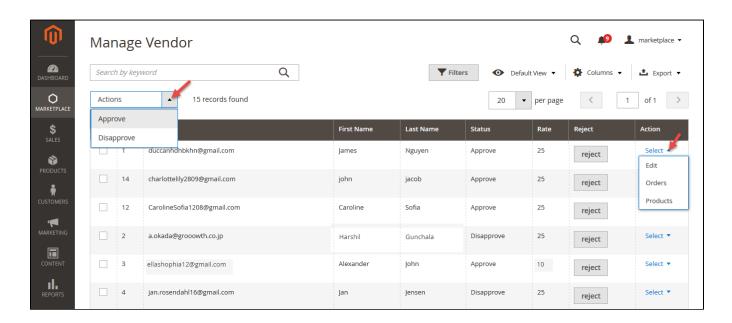

For Admin

The following is the great features that this extension brings for admin.

- **Manage Vendors**
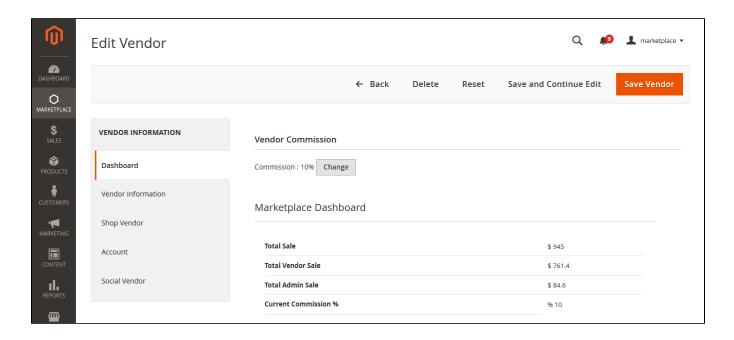

Admin can manage vendor information such as Name Vendor, Email Vendor, Setting Shop... Especially, vendor accounts need approval from store owners before the beginning.

Click **Select > Edit** button if admin wants to view or implements any changes about the vendor information:

➕ Commission:

The store owner has the ability to set up commission between store owner and vendors. Store owners can decide how much commission a specific vendor must pay for selling an item.

The Add Answers page will appear for admin to enter the answer. Admins need to remember to click on **Public** button to send out the answer.

- **View Admin Dashboard**

Admin Dashboard helps store owners collates information about their business:

Update

- When a bug fix or new feature is released, we will provide you with the module's new package.
- All you need to do is repeating the above installing steps and uploading the package onto your store. The code will automatically override.
- Flush the config cache. Your store and newly installed module should be working as expected.

Support

- We will reply to support requests after **2 business days**.
- We will offer **lifetime free update and 6 months free support for all of our paid products**. Support includes answering questions related to our products, bug/error fixing to make sure our products fit well in your site exactly like our demo.

- Support **DOES NOT** include other series such as customizing our products, installation and uninstallation service.

Once again, thank you for purchasing our extension. If you have any questions relating to this extension, please do not hesitate to contact us for support.
