Introduction

Alpha Fintech Payment extension for Magento by Magenest is a graceful payment gateway which provides merchants and banks with a single integration to multiple payment products, fraud products and value added eCommerce services such as sales tax management.

This could be considered a technology solution although we like to consider it as something that reduces complexity in the payments world. APC does provide its own payment gateway service so we also act as a Payment Provider supporting merchants with traditional card processing and some alternative payment methods. You should install it now to use the best features like.

Extension's page: [Alpha Fintech Payment Gateway](#).

Features For Admins

- A lot of features is included in the extension that you can tweak to make it best suit your business, including:
 - Support credit card payment and direct debit in USA, Australia and New Zealand.
 - Enter API username and password
 - Allowed credit card types.
 - Support Authorize and Capture method only.
 - View order status transaction.
 - Allowed country.
 - Order total threshold.
 - Enable CVC verification.

Features For Customers

- The primary aim of the extension is to deliver the most fluent and effortless payment experience to the customers:
 - Easily checkout using credit card.
 - Easy access to online transaction reporting

System Requirements

Your store should be running on Magento Community Edition version 1.9.x.

Configuration

[Set up Alpha account.](#)

Firstly, you need to have an Alpha account to use our extension. If you don't have any Alpha accounts, you can Create an account by clicking on the following sandbox test links: and choose **Sign up**.

Next, you enter some personal information which helps **Alpha Payments** can identify you and set up your online login details included: username and password..... The system will also request you to enter an email address to receive direct notification but don't log in regularly.

Then, you confirm your account by agreeing **Alpha** online Terms& Conditions and click on **Sign up** button.

You log in by registered account:

The image shows a screenshot of the Alpha Commerce Hub Log In page. At the top, there is a logo consisting of a red square with a white 'P' inside, followed by the text 'AlphaCommerceHub' in blue. Below the logo is a white box with a blue border containing the login form. The form has the title 'Alpha Commerce Hub Log In' in grey. It includes two input fields: 'Email Address' with a yellow background and a green border, and 'Password' with a yellow background and a green border. Below the password field is a checkbox labeled 'Remember me' and a blue button labeled 'Log In >'. At the bottom of the form is a link labeled 'Forgot Password?'. Below the form, there is a footer line of text: '© 2017 Alpha Commerce Hub - Version 16.3.148 [uat-us] - All Rights Reserved. Terms & Conditions'.

Set Configuration

At the backend, admin needs to configure some fields to connect between your magento site and the Alpha Commerce Hub account.

For Hosted Payment:

Systems > Configuration > Sales > Payment Methods > Alpha Payments

Alpha Payments		
Enabled	<div>Yes</div>	[GLOBAL]
Title	<div>Alpha Payments</div>	[GLOBAL]
Mode	<div>Test</div>	[GLOBAL]
User ID	<div>*****</div>	[GLOBAL]
Merchant ID	<div>SYDECOM001</div>	[GLOBAL]
Url	<div>https://hubuat.alphacommercehub.com.au</div>	[GLOBAL]
API Endpoint	<div>https://hubapiuat.alphacommercehub.com.au</div>	[GLOBAL]
API Key	<div>9721c7ac-2073-4975-9033-7dc7c4ac656a</div>	[GLOBAL]
