Introduction

By default, Woocommerce support ajax cart for simple product in case customers items from catalog page. However, Woocommerce only support ajax cart feature for simple product. Our module enable ajax cart features for **simple product, variable product, grouped product**.

Woocommerce Ajax cart product using ajax to cart cart from product detail page too.

Features

- Work for simple product, variable product, grouped product (If your store use custom product type, feel free to contact us to request support)
- Use ajax add to cart on category page and product detail page.
- Support 2 mode: Pop up: It will show a pop up cart after use add item to cart. Drop down: The product fly to cart and the cart drop down open
- Responsive, elegant design
- Ability to add drop down cart to menu
- Shortcode support

Ajax cart on catalog page

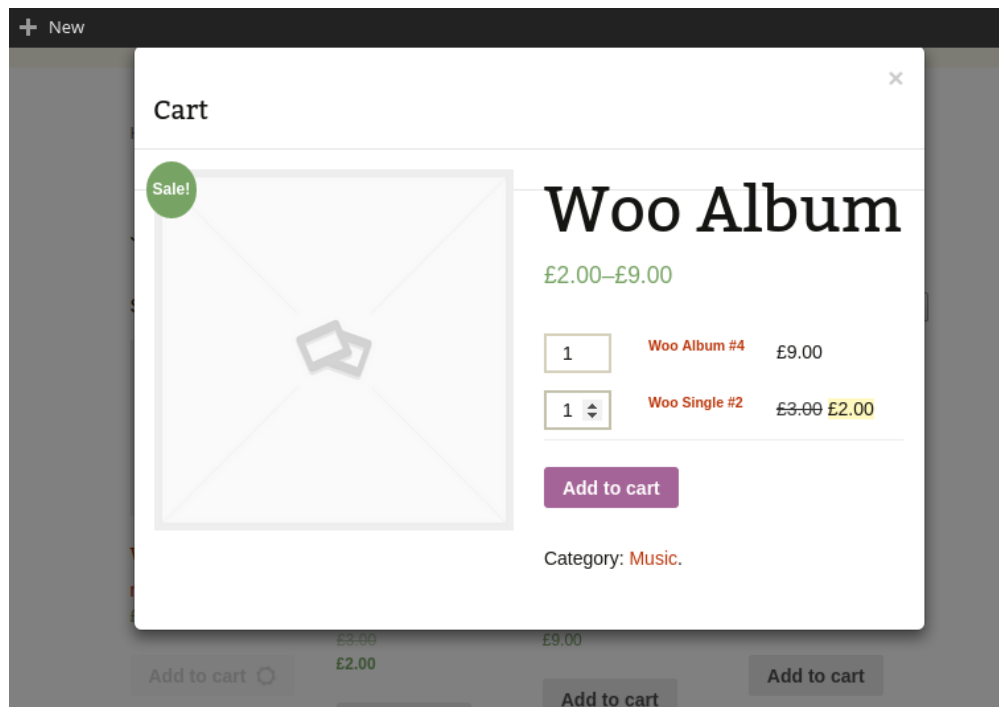

By default Woocommerce only support ajax cart for simple product. If the product type is variable or grouped product, it will display button named "Select Option". Use the Woocommerce Ajax cart module allow customers click Add to cart instead click Select Option. Admin can configure other label for Add to cart button. For example, you can enter Buy now or Book now by define value for **Add to cart label**

The screenshot shows a configuration panel titled "General Options" with a sub-section "Ajax pro setting". It contains three settings: "Ajax cart mode" set to "Open drop down cart" with a dropdown arrow, "Cart title of pop up cart" set to "Cart" in a text input, and "Add to cart label" set to "Add to cart" in a text input. A blue "Save changes" button is at the bottom left.

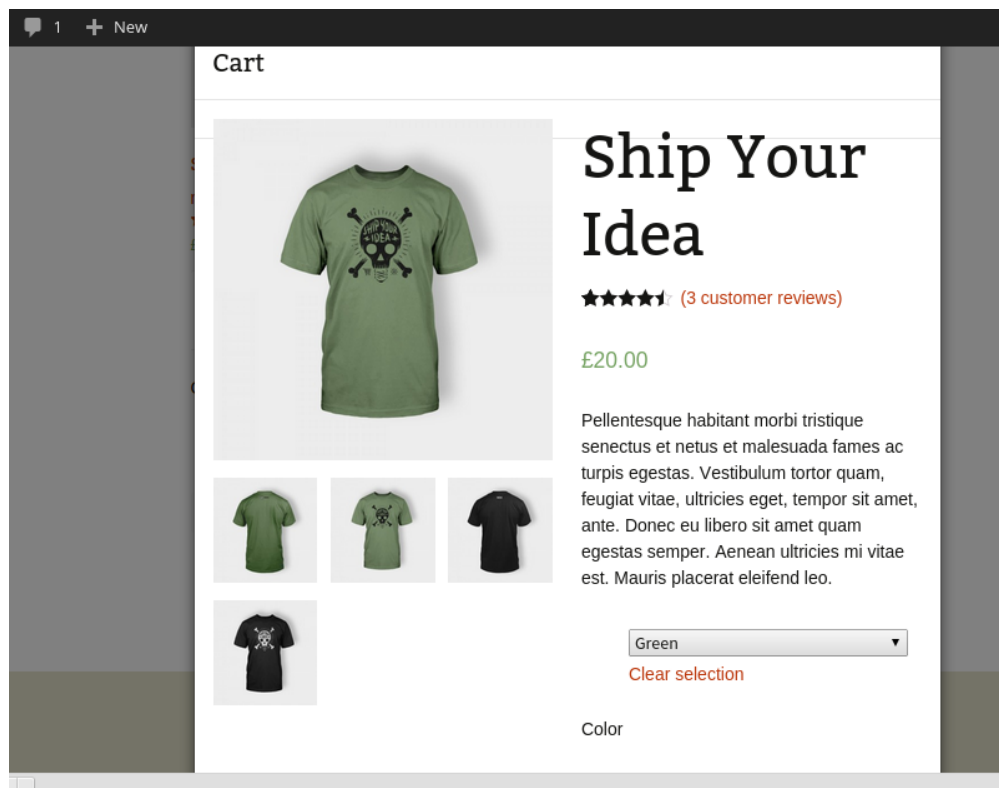

General Options	
Ajax pro setting	
Ajax cart mode	Open drop down cart ▼
Cart title of pop up cart	Cart
Add to cart label	Add to cart
<button>Save changes</button>	

If customer click on Add to cart button of a grouped product, it will open a pop up allow customer enter qty and hit Add to cart button

If the customers click on Add to cart button of variable product it will open a pop up allow customer choose options for product.

If customer choose green option the main image will become image shirt too.

Effect after customer click add to cart button

Woocommerce ajax cart pro allow admin choose effect after customer click add to cart.
