Introduction

Add a histogram table to the reviews of your products, as well as you see in most trendy e-commerce sites. Keep up-to-date about most trendy products thanks to the new options conceived to manage an advanced review system.

Woocommerce Advanced Reviews offers something more than the traditional displaying of product review and rating. It allows your users to report another review. Furthermore, a summary is generated for each product with an indication of how many reviews have been written for each different rating.

Research states that other users' reviews are the primary information, together with product price obviously, that drives them to buy an item or not. Let your users discover what other users say about the product.

For more details, live-demo and user reviews, please visit: http://store.magenest.com/woocommerce-plugins/woocommerce-advanced-review.html

Features

1. Display summary of reviews.
2. Ability to rating review through "Helpful" and "Not Helpful" button in each comment.
3. Add ability to allow customers report a review if it is unappropriate
4. Define your own abuse report fields.
5. Add ability to reply to a product review.
6. Add review summary bar with statistics about how many times a rating of 1,2,3,4 or 5 stars was submitted.
7. SEO friendly

System Requirements

Your store should be running on WPML or Wordpress 2.2.x - 2.4.x and Wordpress 4.1 - 4.3**.**

Video Tutorial

Configuration

Configure report fields to report, access configuration page by the following steps **Woocommerce Settings > Advanced Review** tab.
As you can see, the report fields is seperated by "|" without quotes.
