Introduction

Mega Menu for Magento 2 by Magenest is a powerful tool to create beautiful menu layouts. Merchants will be able to customize their own mega menu with flexible options.

Features

- Flexible Mega Menu configurations
- Create a multi-level menu using drag & drop or hyperlink
- Add pages, categories, or custom item(s) to the menu
- Customize menu items with different colors, background images, labels, icons
- Generate menu according to existing categories automatically
- Create labels for the menu
- Assign a label to each menu item
- Able to customize label and menu with HTML and CSS
- Live preview for label editing
- Add background image/change background color for menu

System Requirements

Your store should be running on Magento 2 CE & EE version 2.3.x, 2.4.x

Configuration

+ General configuration

Enable Mega Menu: to enable/disable the module

Select Mega Menu: Set up the menu to be used for the site here. You can create the menu in **Mega Menu > Menus**

Effect: The effect to show menu and submenu on the storefront

+ Default Menu Configuration

In these settings, you can customize the default menu **text color**, **hover text color**, **hover button background color**, and **drop-down background color**.

⚠ Note: The default menu will only be used if there is no mega menu selected.

+ Menu Settings:

In the Menu Structure, users can use drag & drop to configure the menu's level.

On the right column, there are 3 tabs: Pages, Categories, Custom Item that allow you to add pages, categories, or custom pages to the menu.

You can add one or more items to the menu by selecting the item(s) then click on **Add to menu** button.

Then you can drag and drop the item in the menu structure to create the submenu(s).

Update

- When a new update is available, we will provide you with a new package containing our updated extension.
- You will have to delete the module directory and repeat the installing steps above.
- Flush the config cache. Your store and newly installed module should be working as expected.

Support

- We will reply to support requests within **2 business days**.
- We will offer **lifetime free update and 6 months free support for all of our paid products**. Support includes answering questions related to our products, bug/error fixing to make sure our products fit well in your site exactly like our demo.
- Support **DOES NOT** include other services such as customizing our products, installation and uninstallation service.

Once again, thank you for purchasing our extension. If you have any questions relating to this extension, please do not hesitate to contact us for support.
