Introduction

[blocked URL]

Magento 2 Gift Card Extension is the product developed by Magenest to lets you quickly create gift cards and sell them in your shop.

Features for admins

- Create Gift cards product to sell online.
- Set unlimited values of gift card products to be shown as a drop down, fixed amount or a range.
- Configure the gift card module, change the pdf gift card setting.
- Full back end control: create, edit, resend, change status of gift cards, and more.
- Admins can import/export gift cards from CSV files.
- Customize the email template as you want by various available options.

Features for customers

- Gift cards have different values for customers to choose at their convenience.
- Customer can buy gift card for them self or send it as a gift to their friends.
- Gift card can be delivered by email or post office.
- Manage the gift card/gift voucher that they already purchased at the account dashboard.
- Design card when set up Canvas mode.
- The customer can easily check out of their product through Paypal which is the best payment gateway in the world.
- Customer apply Gift Card code to discount price.

System Requirements

Your store should be running on Magento Community Edition version 2.0.x, 2.1.x and more.

Main Functions

For Admin

- **Gift Card Configuration**

Firstly, admin need to set configuration for Gift Card, including:
🔴 **General :**

+ Order item status to active gift card.
+ Pattern to generate gift card code.
+ Email Template.
+ Email sender.
⛔ Design:
Admin can choose three modes:

➕ PDF mode: Customer choose any Gift Card template and send them.
➕ Canvas mode: Customer can design private card for them.
➕ Turn off design mode: Customer can choose this mode if they do not want to send gift card.

- **Create Gift Card Template**

Admin can view available Templates in an convenient way by navigating to **Gift Card** > **Gift Card Templates.**

Here is the list of created Gift Card Templates. Admin can view and manage them an easy way.

+ If admin want to implement any changes, please click on **Edit**.

**+** If admin want to create a new template, please click on **Add New Template** button.

Then, the New Template page will be shown.

General Configuration tab

Admin fill detail information of gift card template such as: **Template Name, Status, Design Style, Title, Style Color, Text Color, Note**.

Main Image Uploads: Admin can set easily main image by navigating to **Main Imagine Uploads**.

Background Image Uploads: Admin can set easily Background Image by navigating to **Background Imagine Uploads** of **Gift Card Template Configuration**.

➕ When completing gift card template, customer can preview Card Template by clicking **Preview** button:
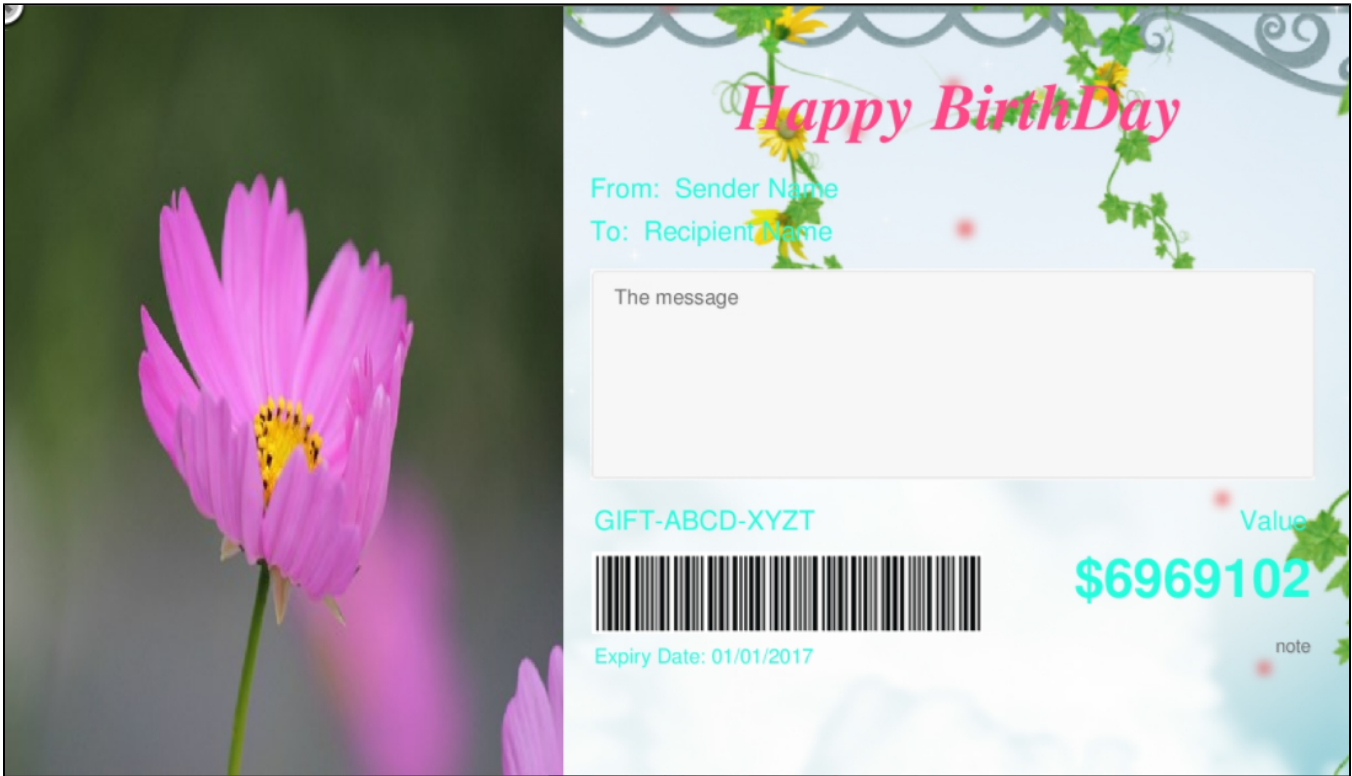

- **Gift Card Codes**

Gift Card codes play a vital role in Magenest's Ultimate Gift Card extension. It allows merchants to view and manage all Gift Card code by navigating to **Gift Card > Gift Card Codes.**

⊕ Apply gift card code:

The gift card code is used to discount price for loyal customer who purchased product in store. They will fill code in Gift Card column and click Place Order button:

Update

- When a bug fix or new feature is released, we will provide you with the module's new package.
- All you need to do is repeating the above installing steps and uploading the package onto your store. The code will automatically override.
- Flush the configure cache. Your store and newly installed module should be working as expected.

Support

- We will reply to support requests after **2 business days**.
- We will offer **lifetime free update and 6 months free support for all of our paid products**. Support includes answering questions related to our products, bug/error fixing to make sure our products fit well in your site exactly like our demo.
- Support **DOES NOT** include other series such as customizing our products, installation and uninstallation service.

Once again, thank you for purchasing our extension. If you have any questions relating to this extension, please do not hesitate to contact us for support.
