## Introducing to Magento Gift Registry extension

Gift Registry is a Magento extension let your clients to create Gift Registry within your Magento store. Gift registry which gives registry owners an ability to inform their guests, friends, relatives about the presents they would like to receive for their Wedding or Anniversary or Baby Gift Registry This is the way it works:

1. A registrant create a gifts registry ( wishlist of gifts )on your store and fill it with all kinds of products they would like to have.

2. After that they populate the gifts registry via sending invitations to their guests to check out their registry.

Everyone who received an invitation (or has been informed about the registry in some other way) comes to your store and starts buying everything that this gift registry contains. After they purchased the gifts for wedding, an email is automatically send to the registrants & co-registrants & Registry owner. And the number of already purchased item is automatically update, too.

#### With Magento Gift Registry extension your customers can:

- Create and manage their own gift registry;
- · Leave comments, priority, additional information for each gift;
- Share gift registries with potential gift-buyers;
- Indicate the date of event and address for shipping the gifts;
- Search for gift registries;
- Track item's status and quantity;
- · Protect Magento registries with passwords;

#### With Magento Gift Registry extension Admin can:

- Manage the list of available event types;
- View the list of created registries;
- · View detail for each registry: customer infomation, added items
- View the list of order
