Introduction

Multiple Vendors extension for Magento 2 by Magenest allows you to convert Magento 2 store to a marketplace where multiple vendors can manage sales of their own products.

Features for admins

- Allow marketplace owner to manage vendor information, approve or reject a vendor account from the marketplace.
- Allow marketplace owner to manage, approve or reject a vendor's products.
- Allow marketplace owner to manage vendor's orders, including order info, order status, and update order status.
- Allow marketplace owner to manage feedback about vendors: approve and delete feedbacks on vendors.
- Allow marketplace owner to manage all vendor participation request: manage all questions from vendors and approve, delete or answer.
- Allow setting: setting email, setting view vendor store
- Admin Dashboard: show total sales, total credit and show chart

Features for vendors

- Register for a Vendor Account and wait for approval from marketplace owner.
- Set Vendor Profile: vendor information, vendor social network profiles.
- Set up Vendor Store and preview Vendor store.
- Manage vendor's products.
- View customer orders.
- Send questions to marketplace owner.
- Dashboard: show sales chart, transaction history, product approval status, customer review and feedback.

Features for customers

- View products of different vendors.
- Add products from different vendors to cart.
- View vendor info.
- Review vendors based on their price, quality and value.
- Contact to vendors.

System Requirements

Your store should be running on Magento Community Edition version 2.1.x.

Configuration

We have created **MarketPlace** tab for this extension which allows store owner easily to control their marketplace.

In order to get the extension up and running properly, we highly recommend that you make some configurations right from the beginning.

First, go to **Market Place > Settings**:

In Settings tab, there are five parts: **Email Template**, **Seller Product's Setting**, **Product Page Setup**, **Vendor Dashboard Setup**, **Terms and Condition**.

+ Email Template:

In this tab, admins will be able to select the email templates for their store for each case as below:

Email Template

1

Email Form

[store view]

General Contact

Email form selected.

Email Template Approve Vendor

[store view]

Approve Vendor (Default)

Approve account send email to vendor.

Email Template Disapprove Vendor

[store view]

Disapprove Vendor (Default)

Disapprove account send email to vendor.

Email Template Reject To Vendor

[store view]

Reject Vendor (Default)

Reject vendor account send email to vendor.

Email Template Approve Product Vendor

[store view]

Product Vendor Approve (Default)

Approve product and send mail to vendor

+ Seller Product's Setting

Admin can decide whether product vendors must be approved before customers can view them on frontend store. Furthermore, admin can also require product approval for both the first time and the update.

Seller Product's Setting 2

Attribute Set ID [store view] Default

Product Approval Required [store view] Yes

Product Update Approval Required [store view] Yes

+ Product Page Setup

This tab allows admin to manage Product Detail Page in frontend store. Admin can decide to show vendor names, vendor icons or both of them. In addition, admins can choose one value from Number Product Related drop down list.

The screenshot shows the 'Configuration' page with a sidebar on the left containing menu items: DASHBOARD, MARKETPLACE, SALES, PRODUCTS, CUSTOMERS, MARKETING, CONTENT, REPORTS, and STORES. The main content area is titled 'Configuration' and includes a 'Store View' dropdown set to 'Default Config' and a 'Save Config' button. The 'MAGENEST' section is expanded, showing 'Marketplace' and 'CUSTOMERS' sub-sections. The 'Product Page Setup' section is highlighted with a green circle and a red '3'. It contains a 'Display mode' dropdown set to 'Show vendor name and icon' and a 'Number Product Related' dropdown set to '2'. A red arrow points to the 'Number Product Related' dropdown, which is open, showing options: 2, 2, 4, 6, 8, 10. Another red arrow points to the 'Display mode' dropdown, which is also open, showing options: Not show vendor, Show vendor name, Show vendor icon, Show vendor name and icon.

+ Vendor Dashboard Setup

Admin has the ability to set up Vendor Dashboard with **Number Product**, **Number Order**, **Number Transaction**, **Number Best Seller**, **Number Most View**, **Number Review**.

The screenshot shows the 'Vendor Dashboard Setup' form, which is a section within the configuration page. It is titled 'Vendor Dashboard Setup' with a red '4' in a circle. The form contains six input fields, each with a label, a value, and a dropdown arrow. The fields are: 'Number Product' with value '6', 'Number Order' with value '8', 'Number Transaction' with value '6', 'Number Best Seller' with value '6', 'Number Most View' with value '6', and 'Number Review' with value '3'. Each field has a '[global]' label below it.

+ Terms and Condition

Store owners can add content for Terms and Condition for their marketplace:

Terms and Condition
[global]

Show / Hide Editor

- You can use Content from up to five different Apple IDs on each device.

- It is your responsibility not to lose, destroy, or damage Content once downloaded. We encourage you to back up your Content regularly.

- You may not tamper with or circumvent any security technology included with the Services.

- You may access our Services only using Apple's software, and may not modify or use modified versions of such software.

- Video Content requires an HDCP connection.

iTunes Store Content:

- You can use Digital Rights Management (DRM)-free Content on a reasonable number of compatible devices that you own or control. DRM-protected Content can be used on up to five computers and any number of devices that you sync to from those computers.

- Content rentals are viewable on a single device at a time, and must be played within 30 days, and completed within 24 to 48 hours of the start of play depending on the Content offered on the Services in your Home Country (stopping, pausing or restarting does not extend this period).

- You may burn an audio playlist to CD for listening purposes up to seven times (this limitation does not apply to DRM-free Content).

App Store Content:

- The term "App" includes apps, iMessage and Apple Watch apps, in-app purchases, extensions (such as keyboards), stickers, and subscriptions made available in an app.

Path: p

Condition and Terms of Admin

Main Feature

For Vendor

- [Set Up Vendor Account](#)

 Login Vendor Account:

We have created **Vendor Login** button at the top right-hand corner.

Vendors can sign in their account from here:

The screenshot shows a 'Sign in' form. The form has a title 'Sign in' and a link 'Forgot password?'. It includes input fields for a username (labeled 'JohnAlexander') and a password (masked with dots). There is a 'Remember me' checkbox and a 'Sign in' button. At the bottom, there is a link 'Don't have an account! Sign up here'.

Or click on **Sign up here** button to create a new vendor account. It must be approved by the store owner to activate that vendor account.

Return Policy

We offer 30-day money back guarantee for ALL Magento products listed on Magenest store. However, the refund policy doesn't affect ANY Woocommerce product on our store. The refund policy only applies to case of our extensions fail to function properly due to a bug that we cannot support. Refunds will not be granted if you simply decide not to use the product or if the product was purchased for evaluation purposes. If you only wish to try it out for evaluation, please access our Demo Site for testing the extension. Refunds will not be granted in case of coding

Shipping Policy

All products are available for download since the payment has been accepted and verified. If you can't download a product please check status of your payment via payment processor interface.

After that, click on **Save Product** button to save information entered.

Especially, our extension allows vendors to create a new product from **Add Current Product** tab. In this way, store owners can help vendors create new products from backend of Magento 2 store. Then vendors just need to select the existing product and change its' product status from disable to enable.

RETURN POLICY

We offer 30-day money back guarantee for ALL Magento products listed on Magenest store. However, the refund policy doesn't affect ANY Woocommerce product on our store. The refund policy only applies to case of our extensions fail to function properly due to a bug that we cannot support. Refunds will not be granted if you simply decide not to use the product or if the product was purchased for evaluation purposes. If you only wish to try it out for evaluation, please access our Demo Site for testing the extension. Refunds will not be granted in case of coding conflicts that are related to any other extensions that are installed on your site. If request for refund is received after 30 days (follow the Paypal invoice date, GMT-6), it will be rejected. Please request a refund if we can't be able to resolve the bugs. We will require an access to FTP credentials and all tabs of our extension in backend to support you. We will give you a refund if the Software has bugs that we can't fix. To request a refund please submit a request containing your Order ID to support@magenest.com. Magenest refund policy does not cover installation and customization services, support period renewal fees and in-store reward points.

SHIPPING POLICY

All products are available for download since the payment has been accepted and verified. If you can't download a product please check status of your payment via payment processor interface.

For Admin

The following is the great features that this extension brings for admin.

- Manage Vendors

Admin can manage vendor information such as Name Vendor, Email Vendor, Setting Shop... Especially, vendor accounts need approval from store owners before the beginning.

Shop Title:

Advanced Search

Logo Picture:

Shop Description:

We're currently hard at work porting over our most popular Magento 1.x extensions, as well as developing new innovative Magento 2 extensions with merchant success and efficiency in mind. As a Magento technology partner and recognised contributor to the Magento 2 code base, we're staying ahead of the game by working with Magento's development team to understand and advise on merchant and developer friendly functionality for Magento 2 . You can find all currently available Magento 2 extensions in the section below, and rest assured we are adding more.

Meta Keyword:

Magenest, Sphinx search, Solar search,

Meta Description:

Replaces native search with Sphinx search, an external search engine. Search works better, server load is decreased, and results become more trustworthy

Return Policy:

We offer 30-day money back guarantee for ALL Magento products listed on Magenest store. However, the refund policy doesn't affect ANY Woocommerce product on our store. The refund policy only applies to case of our extensions fail to function properly due to a bug that we cannot support. Refunds will not be granted if you simply decide not to use the product or if the product was purchased for evaluation purposes. If you only wish to try it out for evaluation, please access our Demo Site for testing the extension. Refunds will not be granted in case of coding conflicts that are related to any other extensions that are installed on your site. If request for refund is received after 30 days (follow the Paypal invoice date, GMT-6), it will be rejected. Please request a refund if we can't be able to resolve the bugs. We will require an access to FTP credentials and all tabs of our extension in backend to support you. We will give you a refund if the Software has bugs that we can't fix. To request a refund please submit a request containing your Order ID to support@magenest.com. Magenest refund policy does not cover installation and customization services, support period renewal fees and in-store reward points.

Shipping Policy:

All products are available for download since the payment has been accepted and verified. If you can't download a product please check status of your payment via payment processor interface.

▪ **View Admin Dashboard**

Admin Dashboard helps store owners collates information about their business:

Update

- When a bug fix or new feature is released, we will provide you with the module's new package.
- All you need to do is repeating the above installing steps and uploading the package onto your store. The code will automatically override.
- Flush the config cache. Your store and newly installed module should be working as expected.

Support

- We will reply to support requests after **2 business days**.
- We will offer **lifetime free update and 6 months free support for all of our paid products**. Support includes answering questions related to our products, bug/error fixing to make sure our products fit well in your site exactly like our demo.

- Support **DOES NOT** include other series such as customizing our products, installation and uninstallation service.

Once again, thank you for purchasing our extension. If you have any questions relating to this extension, please do not hesitate to contact us for support.
