Introduction

Hightlight Features

- A lot of features is included in the extension that you can tweak to make it best suit your business, including:
 - · Choose between Authorize Only or Authorize and Capture.
 - · New order status.
 - Email customer.
 - Allowed credit card types.
 - Enable CVC verification.
 - Allowed country.
 - Order total threshold.
- Easily manage orders
- · Easily capture, cancel and refund payments.

System Requirements

Your store should be running on Magento 2 Community Edition version 2.1.x.

Configuration

Set up from Adyen home page

When having Adyen account, users will login on website page: https://ca-test.adyen.com/ca/ca/login.shtml

adyen		
TEST		
	MARK & ANN (MARK)	Multi-currency reporting For point-of-sale merchants, we have introduced a new tool to switch between different currencies. You will find this, as well as a new summary for terminal types and versions, on the POS landing page.
Invalid Login Account User Name	Magento2 (change) admin	enter information
Password	Remember my account	1

When Adyen home page appears, users choose Skins->List->Skin Code:

Note: The question mark is next to every category to guide for that category.

Capture Delay:
 immediate: Set to immediate if you want to generate invoice immediately.

emanual: Set to manual if you want to perform the capture of funds manually later

Main Functions

* Easily Checkout Using Credit Card

At frontend, customer will need to choose an item and click on Add to Cart button.

Then, go to checkout and select Adyen Credit Card Payments instead of Check/Money Order

If you want to refund, you should do below step:

In Order View, click Invoices-> View

Appearing Invoice detail, you choose Credit Memo

Then click Refund button. Refund successfully!

To see information about Refunded product, Click Sales->Credit Memos->View

NOTE:

Update

- When a new update is available, we will provide you with a new package containing our updated extension.
 You will have to delete the module directory and repeat the installing steps above.
- Flush the config cache. Your store and newly installed module should be working as expected.

Support

- We will reply to support requests after 2 business days.
- · We will offer lifetime free update and 6 months free support for all of our paid products. Support includes answering questions related to our products, bug/error fixing to make sure our products fit well in your site exactly like our demo.
- Support DOES NOT include other series such as customizing our products, installation and uninstallation service.

Once again, thank you for purchasing our extension. If you have any questions relating to this extension, please do not hesitate to contact us for support.
