Introduction

Paybox Payment Gateway extension for Magento 2 by Magenest is a social payments app, that allows you to send, share, and collect money instantly. No cash needed! Instead of collecting money the traditional and outdated way, use PayBox to send & share money in an organized manner. PayBox enables you to collect money as efficiently as possible. Open up a group payment to send/request money, or send/request money from your peers. So whether you are collecting money for a joint pizza dinner, splitting the taxi fare, or simply paying your friend back for yesterday's coffee, PayBox is there to help you along the way.

The image shows the Paybox by Verifone logo. The word "Paybox" is in a large, white, sans-serif font, and "by Verifone" is in a smaller, white, sans-serif font below it. The logo is centered on a solid blue background.

Highlight Features

- **Features For Admins**
 - A lot of features is included in the extension that you can tweak to make it best suit your business, including:

- Choose between Authorize Only or Authorize and Capture.
- Payment method
- Enable CVC verification.
- View new order status.

Features For Customers

- The primary aim of the extension is to deliver the most fluent and effortless payment experience to the customers:
 - Easily checkout using credit card.

System Requirements

Your store should be running on Magento 2 Community Edition version 2.0.x, 2.1.x., 2.2.x

Configuration

General Configuration

In order to get this extension up and running properly, we highly recommend that users should make some configurations right from the beginning.

First of all, log in Paybox home page: <https://developer.paypal.com/developer/accounts/> and take information about user's account: **SITE number, RANG number, SITE password, IDENTIFIANT, LOGIN, MOT DE PASSE** to synchronize in backend of Paybox.

Special features

MANUALS &
DOCUMENTATIONS

Test Accounts

Specific merchant account

When the merchant accounts are declared, they are simultaneously created in the production environment and pre-production environment, with the same services and options.

Therefore, when his account is already opened, the merchant should use his own account to validate that the integration is correct, according to the services and options activated.

Shared test accounts

In case the merchant does not yet have his own merchant account opened, Paybox provides shared test accounts, in different configurations, that everybody can use.

Tests without 3-D Secure

For all the accounts below, the parameters SITE, RANG, and IDENTIFIANT are necessary in order to make payments. LOGIN and PASSWORD allow access to the Merchant Back Office.

SITE	RANG	IDENTIFIANT	LOGIN	MOT DE PASSE
1999888	32	107904482	199988832	1999888
SERVICES		MOYENS DE PAIEMENT		
- Paybox System version Plus - Option subscription management - Paybox Direct Plus - Merchant Back-office				

Tests Paybox System 3-D Secure

SITE	RANG	IDENTIFIANT	LOGIN	MOT DE PASSE
1999888	43	107975626	199988843	1999888
SERVICES		MOYENS DE PAIEMENT		
- Paybox System version Plus - Option subscription management - Paybox Direct Plus* - Merchant Back-office				

* This account allows using Paybox Direct Plus for subscribers management and post-payment operations (refund, capture,...). However, in order to make a 3-D Secure payment via Paybox Direct, it is necessary to use the following account.

Tests with Paybox Direct 3-D Secure

SITE	RANG	IDENTIFIANT	LOGIN	MOT DE PASSE
1999888	63	109518543	199988863	1999888
SERVICES		MOYENS DE PAIEMENT		
- Paybox Direct Plus - RemoteMPI - Merchant Back-office				

This test account allows making 3-D Secure transactions with Paybox Direct by using the Remote MPI module.

CONTACT

NEWS

In our demo, we use the sandbox account provided from Paybox. When customers want to take **SITE number, RANG number, SITE password, IDENTIFIANT, LOGIN, MOT DE PASSE**, they have to find information from their Paybox's account.

Secondly, go to **Backend of Magento 2 stores-> Configuration**

Then navigate to **Configuration-> Sales->Payment Methods** to install Paybox

Distinguishing between two payment actions: **Authorize Only** and **Authorize Capture**:

1. Authorize only will check the card for validity but not charge the account until the order is approved and invoiced.
2. Authorize and capture will charge the debit/credit card at the time of the order submission.

When done, please press **Save Config**, your configuration is ready to use.

Main Functions

* Easily Checkout Using Credit Card

At frontend, customer will need to choose an item and click on **Add to Cart** button.

Details

Reviews

Luma presents an innovative power vinyasa yoga class for intermediate and advanced practitioners. The video allows you to pace yourself, but more intense work yields longer rest. This class is great for more advanced students looking to learn proper alignment in their yoga practice.

- Includes a breakdown of 12 different postures.
- Chataranga Dandasana and prayer twist.
- Challenging posture (side crow).
- 55 minutes of movement.
