Introduction

In ecommerce industry, the saving information of merchant to each product is very important. Therefore, Magenest creates Call To Order to provide customer to get the option to enable the call to order button for each product and merchant can send notification email to customer anytime. With Call To Order of Magenest, contacting between merchant and loyal customer becomes extremely easy. You should install it now to use the best features like.

Highlight Features

- Change the callback feature in the backend to show the callback button in the frontend, which allows customers to register their information and receive the notifiable email from the site admin.
- Follow the backend callback information based on when merchant communicated to a particular customer or not.
- Change the setting to display the preferred Time To Call option for customers.
- View the number of customers that interested in the product.
- Create email template to send to customers

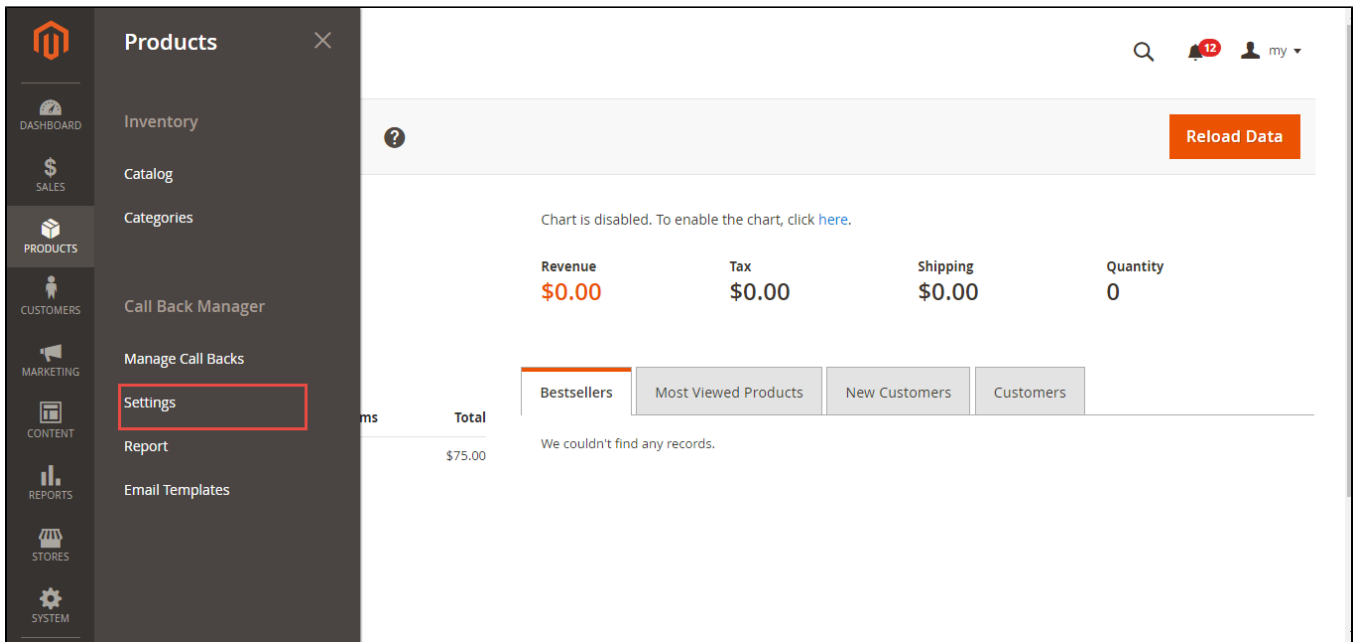

System Requirements

Your store should be running on Magento 2 Community Edition version 2.1.x.

Configuration

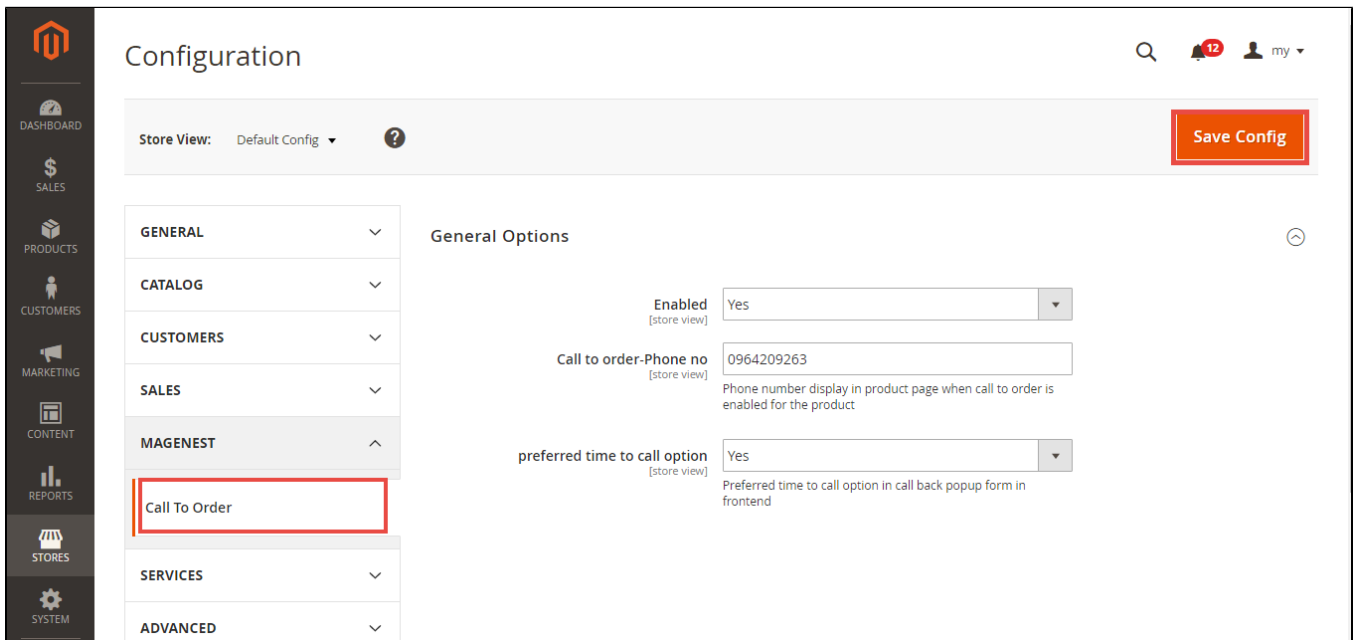

[How to install Magenest product question on Magento 2](#)

Navigate to your **Backend of Magento 2 -> Products->Settings**

Install general options such as below picture:

Call to order Phone no: it is the telephone number that customers use to order

Click on **Save Config** button. Configuration is activated

Main Functions

- **Save Customer's information**

In frontend of extension, you will choose the product that needs buying. Next, click **Call back** button.

This is demo store. No orders will be fulfilled.
