Introduction

Magento 2 License Delivery Extension offers a unique Pincode delivery solution that was designed for ease of use in Magento 2 store. This extension allows you to deliver any product where a pincode can be applied to customers via email.

Features

- Easily create a license product by using the new product type developed by Magenest.
- Allows importing unlimited Pincode for a product by individual images, text codes
- Allow importing bulk license codes for a product by zip files containing images or .CSV file
- Allow importing bulk license codes for multiple products by .CSV file
- Send pincodes for customer via email when an order has been made.
- Admins can manage with license products were sold for a particular customer in the order view.
- Customers can manage the purchased PIN in the account dashboard.
- Support multiple product types include: Simple product, downloadable product, virtual product, configurable product, grouped product, and bundle product.

System Requirements

Your store should be running on Magento Edition version **2.2.x, 2.3.x, 2.4.x**

Configuration

Catalog -> License Product -> Setting

- **Auto Update Stock Quantity:** Enable to update the quantity of the code left, and disable if you do not want to view the update.
- **Send Pin to the customer when the ordered item is:** pending or invoiced
- **Disable guest place order if cart contains Pin items:** Choose **Yes** if you only want to allow customers who created an account on their site to check out with license products. Choose **No** if you want to allow both customers and guests to check out with license products on their site.
- **Email template to send Pin to the customer:** Select an email template that you want to send to customers when they purchase a license product on their site. You can create more email template by navigating **Marketing -> Communication -> Email template**
- **Email Sender:** Select the email sender.

The screenshot shows the 'Configuration' page in a Magento admin interface. On the left is a sidebar with navigation links: DASHBOARD, SALES, CATALOG, CUSTOMERS, MARKETING, CONTENT, DEMO GUIDE, REPORTS, STORES, SYSTEM, and FIND PARTNERS & EXTENSIONS. The main content area is titled 'Configuration' and includes a 'Store View' dropdown set to 'Default Config' and a 'Save Config' button. A yellow notification banner at the top says 'It's time to change your password.' Below this, the 'MAGENEST' section is expanded, showing 'Game License' as the selected category. The 'License Product Stock Quantity' section has a dropdown for 'Auto Update Stock Quantity' set to 'Yes' with a subtext 'Auto update stock quantity base on the number of the code left.' The 'Pin Order Management' section contains three settings: 'Send PIN to customer when Order item is' set to 'Invoiced', 'Disable Guest Place order if Cart Contains PIN Items' set to 'Yes' with subtext 'Guest checkout will only work with shareable.', and 'Email Template to send PIN to Customer' set to 'PINs Delivery (Default)'. The 'Email Sender' dropdown is open, showing options: 'General Contact' (selected), 'Sales Representative', 'Customer Support', 'Custom Email 1', and 'Custom Email 2'.

✓ Click on the **Save Config** button to save the configuration.

Main Function

For admin

On the left menu bar of the backend, click on **Catalog**, you can see the **License Product** section, which includes **Manage Licence**, **Import Licence**, **Manage Instructions**, **Setting**

Manage Licence

Choose **Catalog > Manage License**

The Manage Game Code page will be shown.

Here you can view and manage all the key codes in your store.

Choose **Edit** to make any changes regarding the keycodes generated before.

Click on the **Choose File** button to upload the file.

There are three statuses of key codes, include:

- 1: Available
- 2: Not Available
- 3: Ordered

Manage Instruction

Each license product shall be attached with a guide that instructs customers how to use the product or provide a description for introducing the product.

In order to create a new instruction, go to **Catalog > Manage Instructions**.

Then, the **Manage Instruction** page will be shown.

You can view and manage all instructions of products here.

In order to create a new license product, please go to **Catalog > Product> Add Product > License Product**

Anna
Feel free to contact me with any questions about the product

Leave a message

Then, customers will be received an email that contains a code attached and confirms their order. The email can also be set to attach the instruction file (Check "Serial code instruction" guide)

• Manage the license product

Customers will manage the license product by clicking on **My Account > My License**.

Update

- When a bug fix or new feature is released, we will provide you with the module's new package.
 - All you need to do is repeating the above installing steps and uploading the package onto your store. The code will automatically override.
 - Flush the config cache. Your store and newly installed module should be working as expected.
-

Support

- We will reply to support requests within **2 business days**.
 - We will offer **lifetime free update and 6 months free support for all of our paid products**. Support includes answering questions related to our products, bug/error fixing to make sure our products fit well in your site exactly like our demo.
 - Support **DOES NOT** include other series such as customizing our products, installation and uninstallation service.
-

Once again, thank you for purchasing our extension. If you have any questions relating to this extension, please do not hesitate to contact us for support.
