Introduction

Customization is a great way for businesses to get product ideas from customers while increasing their engagement with the brand. By utilizing customer's ideas and design into your products, businesses might get the best of both worlds – get more customers thanks to virality, high customer acceptance and higher profit without having to spend too much effort.

With [Magenest Custom Product Designer](#) for Magento 2, store managers have the ability to allow customers to design and build their own products.

Highlight Features

System Requirements

Your store should be running on Magento 2 Community Edition version 2.1.

Main Functions

+ [Create product design in back-end:](#)

When customer want to add product that needs designing. Please follow the instruction:

Press **Products-> Catalog**. In Catalog item, customer click **Add Product** and choose **Product Design**.

The screenshot shows the Magento 2 Catalog page. On the left is a sidebar with navigation links: DASHBOARD, SALES, PRODUCTS (highlighted with a red box), CUSTOMERS, MARKETING, CONTENT, REPORTS, STORES, SYSTEM, and FIND PARTNERS & EXTENSIONS. The main content area is titled 'Catalog'. A dropdown menu is open, showing various product types: Simple Product, Configurable Product, Grouped Product, Virtual Product, Bundle Product, Downloadable Product, and Product Design (highlighted with a red box). A red arrow points from the 'Product Design' option to the 'Add Product' button. The 'Add Product' button is orange with a dropdown arrow. Below the button, there's a search bar, a notification bell, and a user profile icon labeled 'productdesign'. Below these are 'Add View' and 'Columns' dropdowns. The 'Active filters' section shows 'Type: Product Design'. Below this, it says '1 records found'. A table displays the product details:

	ID	Thumbnail	Name	Type	Attribute Set	SKU	Price	Quantity	Visibility	Status	Websites	Action
☐	2047		Card	Product Design	Default	Card	\$5.00	999.0000	Catalog, Search	Enabled	Main Website	Edit

At the bottom, there's a footer with the Magento logo, copyright notice 'Copyright © 2017 Magento, Inc. All rights reserved.', and version information 'Magento ver. 2.1.5'. There are also links for 'Account Activity' and 'Report Bugs'.

New Product Type: Product Design. Store managers can add new products with a product type called "Product Design". This type of products allow customers to personalize and customize them to their liking.

Note: Only products with the type of "Product Design" can be customized and personalized. If admins add other type of products, these products will not be customizable.

With Custom Product Designer, customers can easily add text, change the font family, font size, font style, font color, font background color, transparency of the font and font decoration.

Admins can also add pre-designed artworks to these products so they can use them as decoration for the base product. Or customers can add their own artworks to use as decoration.
