Add New Popup

- +** Go to **Content > Magenest Popup > Manage Popup**, you can view and manage all the available popups.

You can create a new popup by clicking on the **Add New Popup** button on the right side.

You can **Disable, Enable, or Delete** an available popup

blocked URL

General Settings

- ➕ In General Settings, you can name the popup, enable/disable popup, active time (Start Date - End Date), and set priority.

Popup Configuration

In Popup configuration page

- **Popup Type:** Corresponding to each popup type, you can select popup default template compatible.
- **Enable Floating Button:** Select Yes to enable the floating button to trigger the popup.

Once you enable it, you will see a **floating button preview [new]**

- **Display Popup:** Choose to display the popup before or after clicking on the floating button.
- **Floating Button Content:** Enter the name of the button.
- **Floating Button Position:** Select a position to display the button on the storefront.
- **Floating Button Text Color:** Select a color for the button text in the color scheme.
- **Floating Button Text Hover Color [new]:** Select a color for the button text when users hover it
- **Floating Button Background Color:** Select a color for the button background in the color scheme.
- **Floating Button Background Hover Color [new]:** Select a color for the button background when users hover it
- **Popup Trigger:** Select a popup trigger method.
- **Number X:** Define the X value in the Popup Trigger setting.
- **Enable Mailchimp:** In case you have selected the **Contact Form** and **Subscribe Form** popup type. Choose **Yes** to enable the MailChimp.
 - **Mailchimp API Key:** To find your API Key, follow these steps
 - [Login to Mailchimp](#)
 - Copy an existing API key or click the **Create A Key** button. Paste this into **Mailchimp API Key**.
 - Click the **Extras menu** and choose API keys.
 - Click your profile name to expand the Account Panel and choose Account.
 - **Mailchimp Audience Id:** To find your audience ID, follow these steps
 - In the Audience ID section, you'll see a string of letters and numbers. This is your audience ID.
 - Click the **Settings** drop-down and choose the Audience name and defaults.
 - Click **View Contacts**.
 - If you have more than one audience, click the Current audience drop-down and choose the one you want to work with.
 - Navigate to the Audience tab.
- **Popup Position on page:** You can customize the popup position in various areas on the storefront.
- **Popup Animation:** Set animation when a popup displays
- **Store View:** Set the store view to display the popup
- **Customer Groups [new]:** Set customer groups can see popup
- **Enable Cookie Lifetime:** Duration (in seconds) before the popup appears again for the same customer.
- **Layout Updates:** Select a page to display the popup.

Update

- When a new update is available, we will provide you with a new package containing our updated extension.
- You will have to delete the module directory and repeat the installation steps above.
- Flush the config cache. Your store and newly installed module should be working as expected.

Support

- We will reply to support requests within **2 business days**.
- We will offer a **lifetime free update and 6 months of free support for all of our paid products**. Support includes answering questions related to our products, bug/error fixing to make sure our products fit well in your site exactly like our demo.
- Support **DOES NOT** include other series such as customizing our products, installation, and uninstallation service.

Once again, thank you for purchasing our extension. If you have any questions relating to this extension, please do not hesitate to contact us for support.
