## Introduction

Magento 2 Change Product Image On Hover allows customers to view another image or video of your product just by hovering over a product from the Catalog Pages.

### Highlight Features

- Apply hovering for product images on Home Page and Category page
- Display another image without navigating to the product detail page
- Set hover image in two ways: automatic and manual
- 6 hover animations and 5 easing functions
- Zoom in/out on product image on the product page
- Display video on hover

## System Requirements

Your store should be running on **Magento 2** version **2.1.x**; **2.2.x**; **2.3.x**

## Configuration

First, you have to enable the extension in **Stores > Configuration > Magenest > Product Image Swap**.

**Enable Module:** Choose Yes to enable Catalog Image Hovering.

- ✔ Automatically set the second product image as a hovered catalog image.

The screenshot shows the Magento Configuration interface. On the left is a sidebar with navigation options: DASHBOARD, CATALOG, STORES, and SYSTEM. The main content area is titled 'Configuration' and shows the 'MAGENESE' configuration for 'Store View: Default Config'. A 'Save Config' button is in the top right. The settings are organized into sections:
 

- General Settings:**
  - Enable module:** Set to 'Yes'. Description: 'Automatically set the second product image as hovered catalog image'.
  - Animation starts when hovering over:** Set to 'Product Image'.
  - Enable zoom effects on product page:** Set to 'Yes'.
  - Default zoom effect:** Set to 'Mousewheel zoom'.
- Image Settings:**
  - Default Animation:** Set to 'No Animation'.
- Video Settings:**
