Introduction

Store Locator for Magento 2 helps merchants guide online customers to physical stores easily via Google Maps integration. In this way, customers are allowed to find the right direction to the nearest store with multiple options (distance, payment methods, parking availability, etc.)

Highlight Features

For admin

- Set locations by directly clicking on the Map in the setting.
- Manually specify locations using Latitude/Longitude and apply them to the Map.
- Set the default zoom level on the map.
- Enable/disable the store(s).
- Set to display stores list tab on menu bar.
- Add description images for the stores.
- Set opening and closing time for all or each store by each day of the week.
- Set day-off for the stores.
- Set available products for store in store setting.
- Set stores list for each product in product configuration.
- Set color for the stores list on the front-end.
- Add special dates for a store with promotion information.
- Configure the SEO for each store.
- Add new attribute to a store: parking, ATM, new arrivals, payment methods, brands.
- Create holidays and brands, assign them to the stores.
- Import / Export the stores list.

For customers

- Customers can search for a store by location or filters.
- Auto zoom to show all locations in the region.
- Advanced direction from customer's spot to the store.
- Distance can be shown by radius (Km or Miles).
- Show store list in product detail pages.
- User friendly interface.
- Display image slider on store detail page.
- Show pin point on the map when clicking on the store name in the store list.
- Store pin point will show store info when clicked.

- shows the distance from your location (or by the entered address) to the stores
- Add the stores to favorites
- Filter stores by attributes, country, distance

System Requirements

Your store should be running on **Magento 2.3.x and 2.4.x**

General Configuration

On the admin sidebar, go to **Magenest Map List > Settings > Configuration**.

On the **Configuration** page

+ General

- **Show "Store" in Menu:** Choose **Yes** to display **Store** tab on the main menu bar.
- **Display a list of stores having the products in the Product Detail page:** choose **Yes** to show a list of stores on the product detail page. In the list, online customers can view the store that the product is available.
- **Background Color:** set the background for the store list section on the front-end.

The screenshot shows the 'Configuration' page for the 'MAGENEST' extension. The 'General' section is active, displaying the following settings:

- Show 'Stores' in Menu:** Set to 'Yes' (dropdown menu). There is a checkbox for 'Use system value' which is unchecked.
- Display a list of stores having the products in Product Details page:** Set to 'Yes' (dropdown menu). There is a checkbox for 'Use system value' which is unchecked.
- Background color:** Set to '222795' (text input). There is a checkbox for 'Use system value' which is unchecked.

A 'Save Config' button is located in the top right corner of the configuration area.

+ Display

- **Allow display store logo:** Allow display store logo on frontend
- **Marker icon:** Set icon for store on the Map
- **Marker icon highlight:** Set icon when click to store on the Map
- **Display CMS block on store details page:** allow display the store CMS on the store detail page

⚠ Note: To edit CMS block, please go to **Content > Block** and select Covid-19 block

The screenshot shows the 'Display' configuration section with the following settings:

- Allow display store logo:** Set to 'Yes' (dropdown menu). There is a checkbox for 'Use system value' which is unchecked.
- Marker icon:** Set to 'Choose File' (file selection button). Below it, there is a 'Delete Image' checkbox (unchecked) and a note 'Recommended ratio 32x32'.
- Marker icon highlight:** Set to 'Choose File' (file selection button). Below it, there is a 'Delete Image' checkbox (unchecked) and a note 'Recommended ratio 32x32'.
- Display CMS block on store details page:** Set to 'Yes' (dropdown menu). There is a checkbox for 'Use system value' which is unchecked.

+ Map configuration

- **Google Maps API:** Enter your Google API.
- **⚠️ Note:** Google has the API limit, learn more [here](#).
- **Unit System:** The radius unit - kilometers or miles.
- **Default Zoom:** Select the default zoom level.

Map config ⌵

Google Maps API [store view]

You can get google API at -> [Get Google Maps API here](#)
Google Maps JavaScript API, Google Maps Geocoding API, Google Maps Directions API, Google Places API Web Service, Google Static Maps API
Must be enabled.

Unit System [store view] Use system value

Default Zoom [store view] Use system value

+ Default Opening Hours for All Stores

Set the opening time for each day in a week. Leave blank on a day to set day off.

Default Opening Hours for all Stores ⌵

Format Opening Hours: (open Hours)HH:mm - (close Hours)HH:mm (24 Hours format)
 Leave field empty for day off

Monday <small>[store view]</small>	<input type="text" value="07:00 - 8:00"/>	<input type="checkbox"/> Use system value
Tuesday <small>[store view]</small>	<input type="text" value="07:00 - 8:00"/>	<input type="checkbox"/> Use system value
Wednesday <small>[store view]</small>	<input type="text" value="07:00 - 8:00"/>	<input type="checkbox"/> Use system value
Thursday <small>[store view]</small>	<input type="text" value="07:00 - 8:00"/>	<input type="checkbox"/> Use system value
Friday <small>[store view]</small>	<input type="text" value="07:00 - 8:00"/>	<input type="checkbox"/> Use system value
Saturday <small>[store view]</small>	<input type="text" value="07:00 - 8:00"/>	<input type="checkbox"/> Use system value
Sunday <small>[store view]</small>	<input type="text" value="07:00 - 8:00"/>	<input type="checkbox"/> Use system value

+ After finishing the configuration, click on **Save Config button.**

Create Store Attribute

Add Attribute

+ On the admin sidebar, go to **Magenest Map List > Attributes, the admin can manage all the available attributes by **editing and adding**.**

The screenshot shows the 'Attributes' page in the Magento Admin interface. On the left is a vertical sidebar with navigation icons for Dashboard, Sales, Catalog, Customers, Marketing, Content, Demoguide, Reports, Magentest Map List, Stores, and System. The main content area is titled 'Attributes' and features a search bar, a red 'Add New' button, and a 'filters' dropdown. Below this, it indicates '6 records found' and shows a table with the following data:

ID	Input Type	Label Name
167	text	
171	boolean	ATM
169	multiselect	Brand
172	text	New Arrivals
170	boolean	Park
168	multiselect	Payment Method

At the bottom of the page, there is a copyright notice: 'Copyright © 2021 Magento Commerce Inc. All rights reserved.' and links for 'Privacy Policy' and 'Account Activity'.

- **Attribute code:** attribute code
- **Label:** Attribute label
- **Input Type:** Attribute type

Text Field

Yes/No

Dropdown

Multiselect

For the **Dropdown** or **Multiselect** you can add options to filter.

- **Can be filter?:** Allows to display on the filter on the frontend.

The screenshot shows the 'Attribute Information' form in the Magento Admin interface. The sidebar is the same as in the previous screenshot. The main content area is titled 'Attribute Information' and includes a search bar, a notification bell with '75', and a user profile 'david'. Below the title bar are three buttons: 'Back', 'Save and Continue Edit', and 'Save Attribute'. The form contains the following fields:

- Attribute Code ***: A text input field.
- Label ***: A text input field.
- Input Type**: A dropdown menu currently set to 'Text Field'.
- Can be filter?**: A toggle switch currently set to 'No'.

At the bottom of the page, there is a copyright notice: 'Copyright © 2021 Magento Commerce Inc. All rights reserved.' and links for 'Privacy Policy', 'Account Activity', and 'Report an Issue'. The version number 'Magento ver. 2.3.6' is also displayed.

Add Options

Add New Store

On the admin sidebar, go to **Magenest Map List > Stores > All Stores**. On the **Stores** page, admin can manage the available stores or add a new one. To add a new store, click on **Add New Store**, go to **New Store** page.

Store Settings

- **Status:** Enable/Disable the new store.
- **Store Name:** Enter a name for the new store.
- **Short Description:** Fill with a short description, which will be shown after customers click on the pin point on the map.
- **Description:** Enter a detailed description on the store-view page.
- Enter the store address on **State/Province, City, Zip, Address** fields.
- Add further information for the store on **Website, Email, Phone Number** fields.
- **Map:** Use Ctrl + scroll and mark the store address on the map, then the **Latitude** and **Longitude** fields will be auto filled.
- **Store Icon:** Upload store icon to identify the store on stores list.
- **Assign to Store Views:** Select store views to show the store information.
