Introduction

Promotional codes are an effective way to boost your business in the revenue aspect and the marketing aspect. Coupon codes are also a common and affordable way to get new people on your website. And with new customers comes a boost in brand awareness, your coupons will also reach many more people who are your potential customers. Magenest Coupon Code Listing extension comes with interesting features, it allows you to control how long the deal lasts, limits the use of a coupon per code or per user... Let's boost your sales and give your business a good push.

Highlight Features

For Admin

- Filter attributes in cart price rules to display external coupon codes.
- Enable/Disable the coupon code list.
- Set up coupon information fields to be displayed on the storefront.

For Customer

- Show coupon code list at the view cart page and checkout on the storefront to save the customer from the effort of searching for a suitable coupon code
- Coupon code will be automatically disabled after it expires.
- Customers can use coupon codes without having to enter them manually.

System Requirements

Your store should be running on Magento 2 version 2.1.x; 2.2.x; 2.3.x.

Configuration

 In order to configure the Coupon Code module, go to **Store > Configuration > Magenest > Coupon Code**.

Coupon listing settings

- **Enable Coupon Listing:** Select **Yes** to enable the coupon code list at the checkout page for customers
- **Display Fields:** Select the coupon information fields to display on the storefront.

 **Note:** You should select at least two options: **Coupon Code** and **Description**.

The screenshot shows the Magento Configuration interface. On the left is a sidebar with navigation links: DASHBOARD, SALES, CATALOG, CUSTOMERS, MARKETING, CONTENT, FACEBOOK CHATBOT, WEBSITE MARKETING, CONTENT, FACEBOOK CHATBOT, and REPORTS MARKETING. The main header is 'Configuration' with a search icon, a notification bell with '2', and a user profile 'admin'. Below the header, the 'Scope' is set to 'Default Config'. A 'Save Config' button is in the top right. The left sidebar lists configuration categories: GENERAL, CATALOG, SECURITY, CUSTOMERS, SALES, YOTPO, ENGAGEMENT CLOUD, and MAGENEST (expanded). Under MAGENEST, 'Coupon Code' and 'Facebook Chatbot' are listed. The main content area is titled 'Coupon listing settings'. It contains two sections: 'Enable Coupon Listing' and 'Display Fields'. 'Enable Coupon Listing' has a dropdown set to 'Yes' and a checkbox 'Use system value' which is checked. Below it is the text 'Enable/Disable Coupon Code Listing.'. 'Display Fields' has a list of fields: 'Coupon Code', 'Description', 'Uses Per Coupon', 'Uses Per Customer', and 'Expiring'. A checkbox 'Use system value' is checked. Below the fields list is a red warning message: 'Fields is chosen to show external storefront. You should select at least two options: Coupon Code and Description.'

Coupon rules settings

+ The coupon code listing is displayed based on the configuration that the Admin had set in the Cart Price Rules.

Note: The settings here are only applicable if the Coupon field in the Cart Price Rule setting was configured as in the image below

- **Coupon:** Specific Coupon
- **Coupon Code:** Enter your discount code. Please note that you **MUST NOT** select *Use Auto Generation*.

The screenshot shows a form for setting coupon rules. It has two main fields: 'Coupon' and 'Coupon Code'. The 'Coupon' field is a dropdown menu with 'Specific Coupon' selected. The 'Coupon Code' field is a text input with 'MAXDISCOUNT' entered. Below these fields is a checkbox labeled 'Use Auto Generation' which is unchecked. A red warning message is displayed below the checkbox: 'If you select and save the rule you will be able to generate multiple coupon codes.'

+ In the **Coupon rules** settings block

- **Website:** Choose **Yes** to enable the Coupon Code in the selected Websites.
- **Customer Group:** Choose **Yes** to enable the Coupon Code in the selected Customer Group in the Cart Price Rule. If disabled, the coupon codes will appear for other customer groups.
- **Active:** Choose **Yes** to show only active coupon codes at the checkout.
- **From Date:** Choose **Yes** to show only the active codes from the selected date. If disabled, all the codes, including the expired ones, will be shown in the coupon list.
- **To Date:** Choose **Yes** to show only the active codes to the selected date. If disabled, all the codes, including the program that hasn't started yet, will be shown in the coupon list.
 - **Note:** "From Date" and "To Date" Fields only appear for the Community Edition.
- **Uses Per Coupon:** Choose **Yes** to disable the coupon code if its redemption limit has been exceeded. If disabled, all the codes, including the ones that are no longer applicable, will be shown in the coupon list.
- **Uses Per Customer:** Choose **Yes** to disable the coupon code if its redemption limit per user has been exceeded. If disabled, all the codes, including the ones that are no longer applicable, will be shown in the coupon list.

+ If on the back end, you've set up to display even the inactive coupon, the customer will be able to see all the coupons, even the inactive ones.

- Customers will receive a notification if they've successfully applied the coupon code.

- If the customers try to apply an invalidate code, they will receive the notification "The coupon code is not active" instead of the Use Now button.
