Introduction

Google Shopping for Magento 2 by Magenest is a powerful tool to sync your products on Magento 2 site to your Google Merchants.

Features

- Admin can create multiple feeds for product feed.
- Synchronizing and updating a specific or all Products from Magento 2 store into Google Merchant both manually and automatically.
- Mapping smartly manually between Magento 2 product attributes and Google Shopping fields

Requirements

Your store should be running on Magento Edition version **2.3.x, and 2.4.x**

Connect your Google Merchant account to your Magento store

⚠ Note: You need to have a Google Merchant account.

- In order to connect your store to google merchant, on the Admin sidebar, go to **Marketing > Google Shopping > Configuration**.
- Under the **Google Merchant Setting** section, click the '**Get Page Access Token**' button to connect Google merchants with Magento, you will be redirected to an endpoint where you can log in and approve the permissions request.

Step 1: Click the **Get Page Access Token** button

Step 2: Approve the permissions for our application:

- Choose an account:

 Sign in with Google

Update

- When a bug fix or new feature is released, we will provide you with the module's new package.
- All you need to do is repeating the above installing steps and uploading the package to your store. The code will automatically override.
- Flush the configure cache. Your store and newly installed module should be working as expected.

Support

- We will reply to support requests within **2 business days**.
- We will offer **a lifetime free update and 6 months of free support for all of our paid products**. Support includes answering questions related to our products, bug/error fixing to make sure our products fit well on your site exactly like our demo.
- Support **DOES NOT** include other services such as customizing our products, installation, and uninstallation service.
