Introducing to WooCommerce Filter

Woocommerce Filter from Magenest is the best plugin for Woocommerce vehicle or vehicle parts website. This plugin lets you apply the filters you need to display the correct variations of the products your customers are looking for.

Features:

1. An unique filter in market that supports for layered category filter
 2. Use Ajax to display results
 3. Beautiful design for your filter
 4. Power filter with 3 layered filters
-

Configuration

First, you need to add new categories like this:

Add New Product Category

Name

The name is how it appears on your site.

Slug

The "slug" is the URL-friendly version of the name. It is usually all lowercase and contains only letters, numbers, and hyphens.

Parent

None ▼

Description

The description is not prominent by default; however, some themes may show it.

Display type

Default ▼

Thumbnail

Upload/Add image

Add New Product Category

<input type="checkbox"/>	Image	Name	Description	Slug	Count
<input type="checkbox"/>		Bicycle		bicycle	1
<input type="checkbox"/>		— Men		men-bicycle	1
<input type="checkbox"/>		— — Off road		off-road	0
<input type="checkbox"/>		— — — TRC		trc	1
<input type="checkbox"/>		— — On road		on-road	0
<input type="checkbox"/>		— — — Propel		propel	0
<input type="checkbox"/>		— Woman		woman	0
<input type="checkbox"/>		— — X road		x-road	0
<input type="checkbox"/>		— — — Avail		avail	0
<input type="checkbox"/>		— — — Envie		envie	0

Example: You have

Bicycle Men On road Propel

Bicycle Men On road XXX

You only need to creat one product for “ Propel ” category and one product for “ XXX” category

Then go to **Woocommerce Setting** choose **Car Filters** tab

Paste category's tag ID thay you want to display at Page 1 in general option. Example: I want “Bicycle” category displays in Page 1, so i paste it's tag ID in general option

magenest.com/themedemo/kane/wp-admin/edit-tags.php?action=edit&taxonomy=product_cat&tag_ID=126&post_type=product
