- Customers can use the filter to sort the gift list by desired quantity, priority, or price.
- For the drop-down list, when the quantity is out, the Add to cart button will be disabled so that customers cannot purchase that product for the gift registry anymore.

On the cart page, visitors have 2 more options than just checkout.

- **Find more gifts for registrants:** Going back to the gift registry item list to add the product to cart. The products are bought for registrants.
- **Change gifts to regular purchase:** The product(s) will be purchased for the visitors themselves, not for the registry.
- **⚠️ Note:** Customers cannot purchase for more than one registry in one cart, i.e they cannot purchase for multiple gift registries at one time. Buyers have to complete the order which has added the product in a gift registry or change gifts to regular purchase to add another gift registry.

+ On the cart page and checkout page, the registry information will be displayed in each product so buyers can know which registry they are buying for.

+ On the checkout page, buyers can leave a message to the registrants along with the order/gifts.
